Foreword

The HRDC provides policy advice to the government of Botswana on all matters of human resource development. The HRDC Act No 17 of 2013 encapsulates the main functions of the Council including providing advice on tertiary education financing and work-place learning. The Council coordinates and promotes the implementation of the national human resources development strategy. To discharge on the mandate, the HRDC works with diverse stakeholders to ensure the collection, analysis, and dissemination of data to ensure policy advice can be shared with stakeholders. On behalf of the HRDC Board, Management and Staff, it is my sincere pleasure to share with you the 2025 Priority Skills Report following a comprehensive review of the skills in demand through a consultative and inclusive process of research and engagement.

The Priority Skills Report is a key report produced annually that provides advice on current, emerging, and future skills to enable strategic use of financial resources for tertiary education leading to the development of a globally competitive human resource. The report provides advice to end users on a range of education and training issues including highlighting niche areas for tertiary education financing. The report provides critical advice to the Department of Tertiary Education Financing (DTEF) on sponsorship for young people applying for tertiary placement to ensure that they are sponsored for programmes that are aligned to current and future market needs. Furthermore, the Botswana Qualification Authority (BQA) uses the report to consider and approve accreditation of new qualifications and programmes. The Education Training Providers use the report to identify current and future skills requirements to proactively review their curriculum and develop relevant programs that address local and global skills needs.

The disruptions resulting from rapid technological change, environment crises and climate change, pandemics and business transformations are driving the demand for new skills. To this end, the Council has commenced the process of skills forecasting and these will be reviewed on a quarterly basis to match the rapid evolution of skills. We will remain responsive to feedback from our stakeholders especially Gen Z and Gen Alpha whose learning needs and expectations for the world of work will be different from ours.

Professor Alinah K. Segobye
Chief Executive Officer
Human Resource Development Council

1.0 Executive Summary

- 1.1 Botswana through VISION 2036 has committed to **developing an internationally competitive workforce that is productive, creative and has international exposure**. Continuous foresight analysis enhances the development of medium to long term skills plans' that will guide the development of future skills for future jobs.
- 1.2 A globally competitive human resource will drive the development of a diversified economy with a capacity to sustainably create decent jobs and improve the socio-economic status of Botswana. According to the 2024 World Economic Forum Report, the Fourth Industrial Revolution(4IR) has accelerated the pace of adoption of technologies and shifted the frontier between humans and machines across most sectors of the economy.
- 1.3 Given the rapid evolution of skills it is of paramount importance for the Council to conduct annual review of the skills in demand to inform development of new programmes as well as re-tooling and up-skilling the workforce to continually make them relevant and competitive.
- 1.4 In 2024, the Council conducted a comprehensive review of the skills in demand. To this end the Council developed for the first time, the long-term skills forecasts to enable pro-active responses to the emerging, future skills, & future jobs in the local and global markets. These skills forecasts will be reviewed on quarterly basis to adjust the forecasts to the rapid evolution of skills.
- 1.5 The findings of the annual review of the skills in demand shows that there are few job openings resulting in an increase of graduate unemployment rate. The demand for skills is currently due to vacancies which require several years of working experience and therefore favour experienced job seekers. The situation is worsened by the slow economic growth leading to low job creation. In this regard, there is need for education and training reforms that enables a shift from education for employment only to education for job creation, research, and innovation.
- 1.6 The 2025 Priority Skills Report comprises of skills forecasts that will be useful to a wide range of stakeholders that include: Employers, Education Training Providers (ETPs), Students, Policymakers & Planners, Regulators, Professional Bodies, among others.
- 1.7 The Council will conduct capacity building and dissemination workshops on skills forecasting to enhance effective and efficient use of the report.

Chapter 1: Introduction and Methodology

1.1 Introduction

The Vision for HRDC is to develop a globally competitive human resource. As encapsulated in the National Human Resource Development Strategy (NHRDS), the formulation of the National and Sector Human Resource Development (HRD) Plans adopted the human resource development planning approach, which is industry driven, more comprehensive, inclusive, strategic and embraces the whole HRD lifecycle from early childhood to lifelong learning.

One of the key functions of the Council is to provide policy advice on all matters of human resource development. In this regard, the Council continually reviews the priority skills on an annual basis to inform development of new programmes, up-skilling, and re-tooling of workers to make them relevant and competitive. As trends such as globalisation, automation and advances in artificial intelligence change the demands of the labour market and the skills needed for workers to succeed also change rapidly.

1.2 Objectives of the annual skills review

- 1.2.1 Conduct a comprehensive review of the skills in demand.
- 1.2.2 Develop the future skills forecasts for the next five years.
- 1.2.3 Provide recommendations for local and external training.

1.3 Methodology for the Skills Review

- 1.3.1 The key methods used to review the skills in demand are the mixed research methodologies and continuous monitoring of the labour market. Figure 1 shows the various quantitative and qualitative methods used to review the skills in demand on an annual basis.
- 1.3.2 Mixed research methodologies allow researchers to gather and integrate multiple data sources to study complex problems and gives them the ability to view a problem from different perspectives and research lenses. By accumulating and analysing both quantitative and qualitative data, researchers triangulate their findings, which means that they can use multiple sources of evidence to confirm or clarify their results (Rovai, Baker, & Porta, 2014).

Figure 1. Methodology for skills review

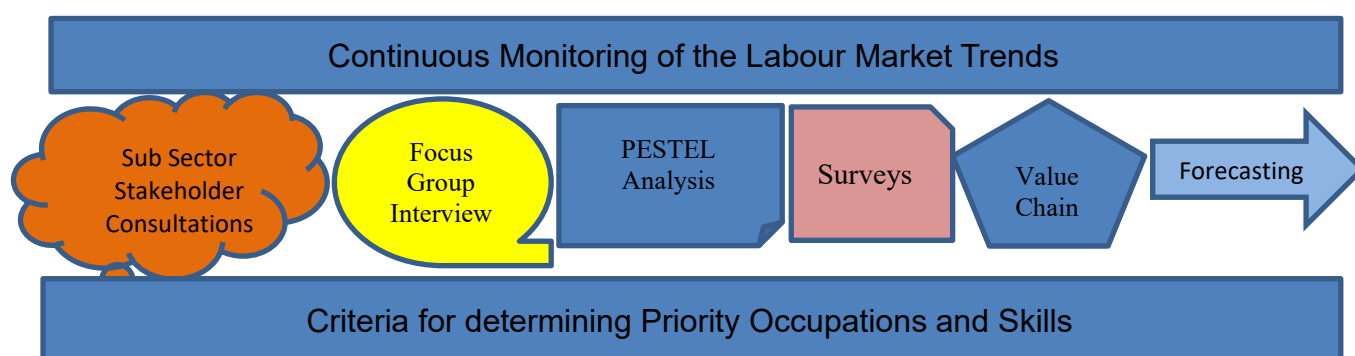

Table 1 shows how quantitative and qualitative data was collected and the rationale for selecting respondents:

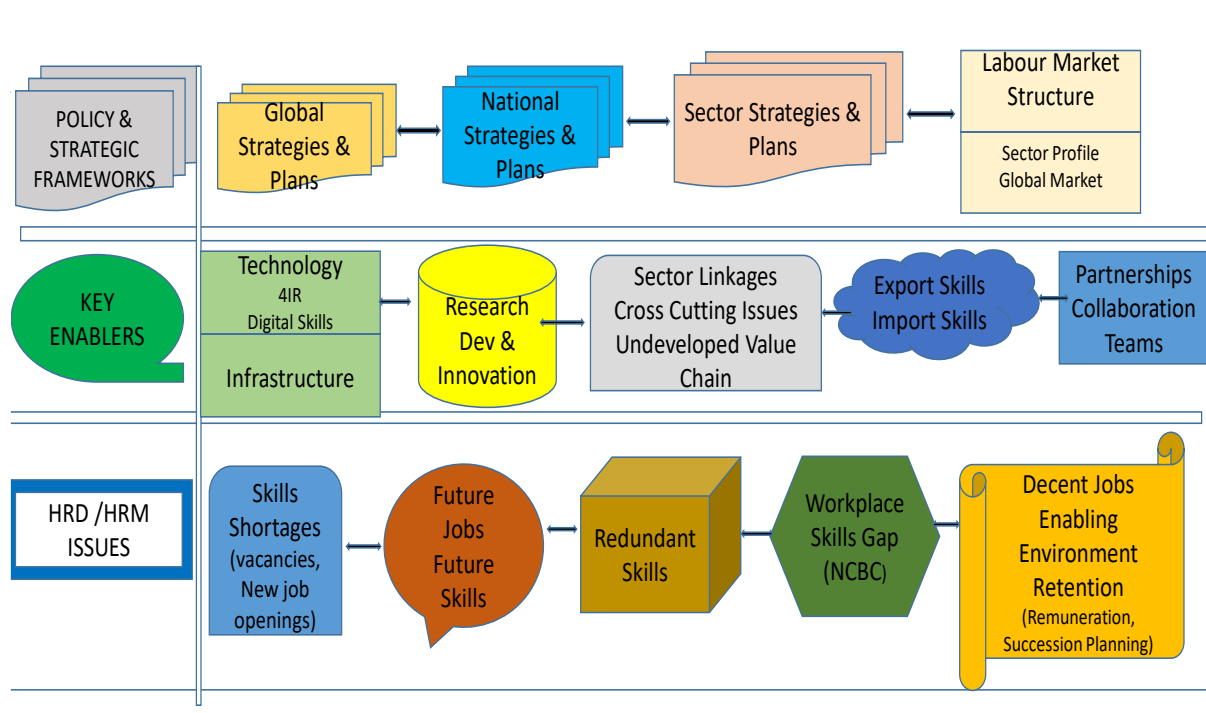

Table 1: Data collection methodologies and respondents

| Data Sources & Respondents | Research Methodologies | Rationale |
|-----------------------------------|----------------------------|--|
| Statistics Botswana | Quantitative | Collects primary data for secondary analysis on employment, unemployment, job creation, etc. |
| HRDC | Quantitative | Collects primary data on tertiary education enrolment trends (Universities & TVET's) |
| Public & Private Sector Employers | Quantitative & Qualitative | <i>Quantitative:</i> Collects manpower estimates <i>Qualitative:</i> Conducts stakeholder workshops, focus group interviews, one-to-one interviews to identify occupations in high demand and define both the technical and soft skills needed. |
| Regulators | Quantitative & Qualitative | <i>Quantitative:</i> Collects data on accredited programmes <i>Qualitative:</i> Participate in stakeholder consultations to provide standards for education and training |
| Policymakers & Planners | Qualitative | Conduct focus group interviews and map current, emerging, and future skills through value chain developments, PESTEL analysis, etc. |
| Professional Bodies | Qualitative | Participates in stakeholder consultations to complement regulators to provide standards used to certify their professionals. |
| Sector Associations | Qualitative | Participates in stakeholder consultation to complement employers in defining soft & technical skills and future skills needed in the sector |

| | | |
|------------------------------|-------------|---|
| Education Training Providers | Qualitative | Participates in stakeholder consultations to promote partnerships with the industry for continuous update on skills in demand to inform curriculum review |
|------------------------------|-------------|---|

1.3.3 Criteria for Prioritising Skills: The criteria for prioritising skills have been developed. This model is customised to each sector based on the strategic direction, profile, and socio-economic importance of the sector. The model is based on policy and strategic frameworks, key enablers, human resource development issues and human resource management issues.

Figure 2: Criteria for Skills Priority

1.3.4 Policy, Strategic Frameworks & National Plans: The identification of priority skills is informed by the strategic direction of the sectors and other factors that drive socio-economic development of the country. Therefore, critical factors that informed the priority skills include:

- Vision 2036
- National Transformative Strategy (2023- 2030)
- Draft National Development Plan (NDP) 12
- 2024 State of the Nation Address (SONA)
- 2025/26 Budget Speech
- Value Chain Development
- Sector Linkages
- Digital Economy (Fourth Industrial Revolution-4IR)
- Green Economy (Sustainable Environment and Climate Change)

Chapter 2: Labour Market Analysis

2.1 Introduction

The HRD Planning process of demand led (sector led) was adopted to ensure graduates acquire skills needed by the employers. Therefore, HRDC continually monitors the absorption capacity of employers to minimise over supply of graduates across sectors. To this end, the key indicators that are tracked include economic growth rate, employment rate, unemployment rate and tertiary education enrolment rate, among others.

2.2 Economic Growth

When giving the 2025/26 budget, the Minister of Finance said:

“Consistent with global economic developments, the domestic economic performance remains subdued, directly impacted by the slump in the diamond market. The economy grew by 3.2 percent in 2023 compared to 5.5 percent in 2022, reflecting lower than expected global demand for diamonds. In 2024, the domestic economy declined by 3.3 percent during the first three quarters of the year compared to a positive growth of 3.5 percent in the same period in 2023. The latest estimates project the domestic economy at -3.1 percent in 2024. In 2025, the economy is projected to grow below its potential at 3.3 percent”.

Given the above projections on the growth of the economy, it will be difficult for the economic sectors to create sustainable jobs and hence the country faces the risk of continued increase in the unemployment rate.

2.3 Employment

- 2.3.1 According to the 2024 first quarter Multi-Topic Survey report released by Statistics Botswana; job creation has been lagging. This has resulted in unemployment being structurally high at 27.6% (Q1: 2024). The level of Inequality (Gini index of 53.3) is among the highest in the world. Growth is projected to slow down to 1% in 2024, from 2.7% in 2023, reflecting a decline in diamond production and prices due to weaker global demand (Statistics Botswana, Quarterly Multi-Topic Survey, 2024).

Table 2 shows the trends of employment growth rates for the past five years.

Table 2: Trends of Employment Growth Rates

| Indicator | Totals | | | | | |
|---------------------|------------|------------|------------|------------|------------|------------|
| | Q4 2019 | Q4 2020 | Q4 2021 | Q4 2022 | Q3 2023 | Q1 2024 |
| Employed Population | 742,378 | 733,875 | 717,418 | 717,725 | 788,616 | 754,147 |
| Changes (Number) | | -8,503 | -16,457 | 307 | 70,891 | -34,469 |
| Changes (Percent) | | (1.1) | (2.2) | 0.0 | 9.9 | (4.4) |

Source: Statistics Botswana, Quarterly Multi-Topic Survey, 2024

2.3.2 Employment growth rate declined from 9.9% in 2023 to -4.4 % in 2024. The decline in the employment growth rate is due to several factors including heavy reliance on the diamond industry which has low labour intensity, and recent economic shocks like the COVID-19 pandemic and geopolitical tensions in some major economies. Employment growth rates significantly declined mostly in Real Estate's Activities, Electricity, Gas, & Air Conditioning Supply, Construction and Manufacturing as shown in Table 3. **Therefore, priority occupations in demand do not guarantee employment due to few job opportunities.** Most of the employment opportunities are due to vacancies.

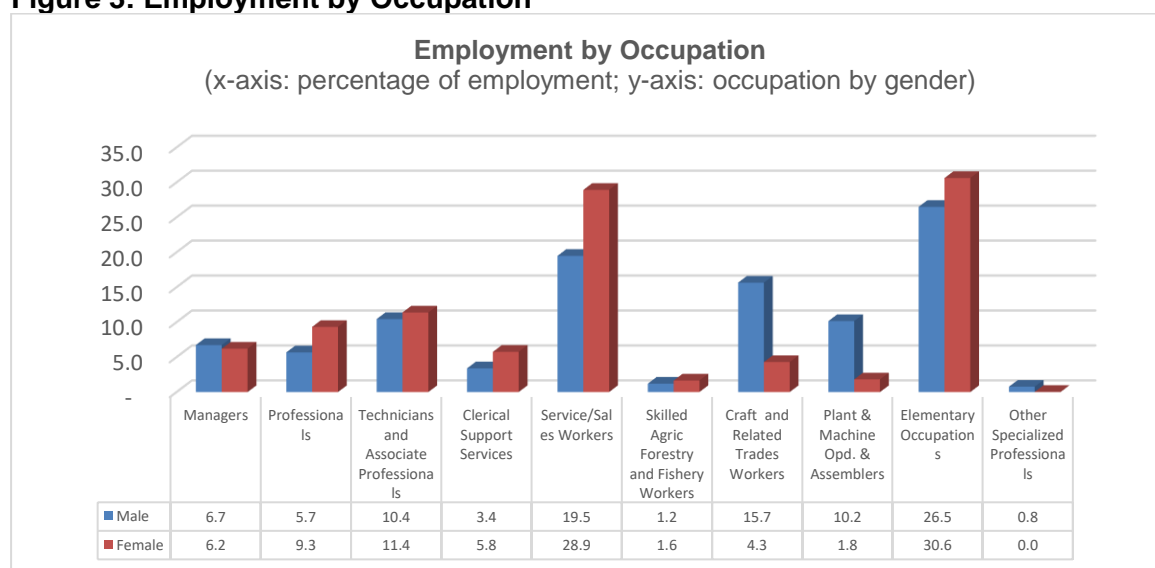

Table 3: Top Ten Activities Contributing to Decline in Employment Rates.

| Activities that contributed to most of the Significant Job Losses | Q3 2023 | Q1 2024 | Changes (No) | Changes (%) |
|---|---------|---------|--------------|-------------|
| Real Estate Activities | 3,382 | 1,568 | (1,814) | (53.6) |
| Electricity, Gas, & Air Conditioning Supply | 3,641 | 2,368 | (1,273) | (35.0) |
| Construction | 58,884 | 46,373 | (12,511) | (21.2) |
| Manufacturing | 56,947 | 45,864 | (11,083) | (19.5) |
| Professional, Scientific and Technical Activities | 14,628 | 12,022 | (2,606) | (17.8) |
| Information and Communication | 7,014 | 6,043 | (971) | (13.8) |
| Mining and Quarrying | 11,412 | 9,918 | (1,494) | (13.1) |
| Other Service Activities | 18,554 | 16,164 | (2,390) | (12.9) |
| Transport & Storage | 21,595 | 19,032 | (2,563) | (11.9) |
| Accommodation and Food Service Activities | 38,661 | 34,997 | (3,664) | (9.5) |

Source: Statistics Botswana, Quarterly Multi-Topic Survey, 2024

2.3.3 Further analysis on employment indicate that the labour market structure is dominated by semi-skilled workers and unskilled workers as reflected in Figure 3. This trend has been recorded since 2015. As a result, every year there are few jobs created for professionals and management trainees which are the entry job positions for most university and college graduates. In this regard, every graduation cohort increases the graduate unemployment rate.

Figure 3: Employment by Occupation

Source: Statistics Botswana, Quarterly Multi-Topic Survey 2024

2.4 Graduate Unemployment

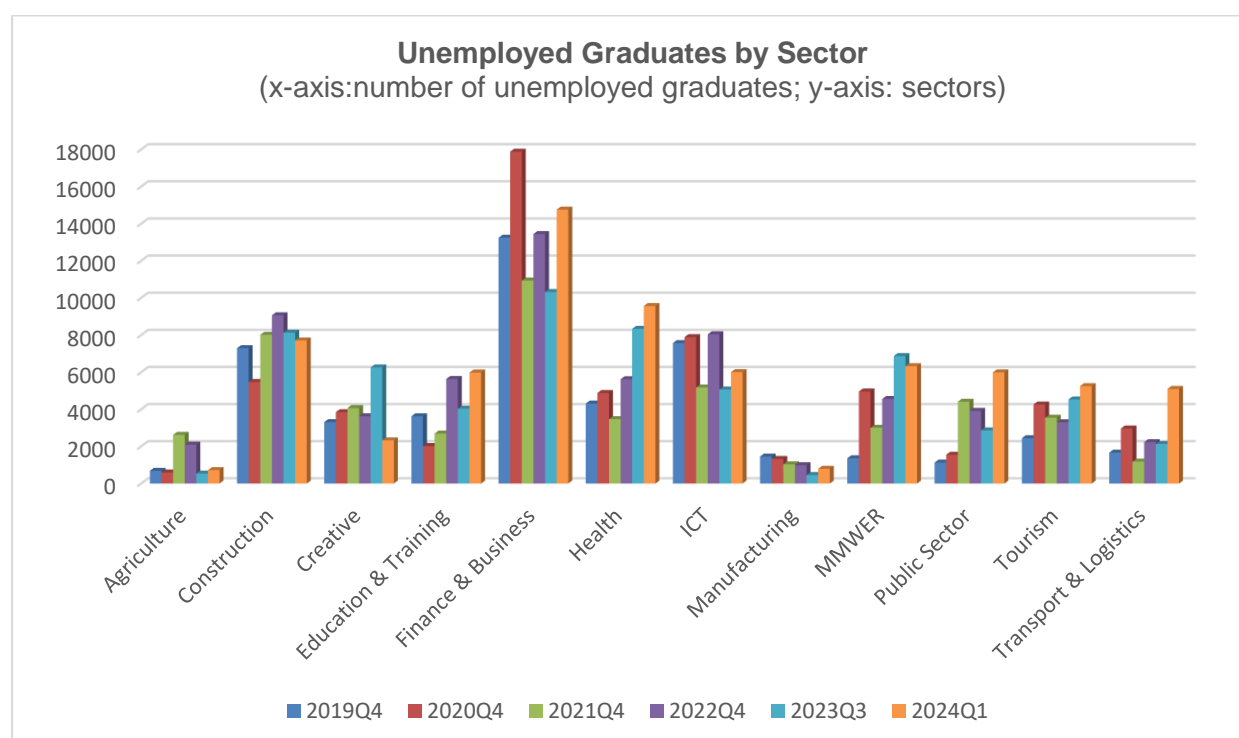

2.4.1 **Graduate unemployment has increased from 59 528 in 2023 to 70 512 in 2024 recording 18.5% increase** (Statistics Botswana, QMTS, Q1- 2024).

2.4.2 Most of the unemployed graduates are trained in Finance and Business Services as shown in **Figure 4**. Furthermore, Botswana Qualification Authority records(www.bqa.org.bw) indicate that Business, Commerce and Management fields has the highest number of qualifications registered in the National Credit Qualification Framework (228 out 994 registered qualifications).

2.4.3 Graduate unemployment in Science Technology Engineering and Mathematics (STEM) field is gradually increasing in ICT, Mining, Energy, Water, Manufacturing, Agriculture and Health Sectors. However, there is an opportunity for STEM graduates to participate in sustainable economic development through research development and innovation that will lead to commercialisation of products and services. To this end graduates will have great potential to establish businesses and create jobs.

2.4.4 The Ministry of Health recently employed 300 health professional graduates that included 161 nurses and midwives; 75 medical doctors while the balance included other cadres like clinical psychologists, pharmacists, pharmacy technicians and medical scientific officers (ref MHW 1/13/1 II (2001)). However, Figure 4 show that 9565 unemployed health graduates are still waiting for employment in the Health Sector (ref. Appendix 3).

Figure 4: Unemployed Graduates by Sector

Source: Statistics Botswana, Quarterly Multi-Topic Survey 2024

- 2.4.5 Further analysis on the unemployed graduates indicate that graduates with qualifications in Business, Finance, ICT, Building and Trade are at the top of the list of unemployment graduates as reflected in Table 4.

Table 4: Top 10 Unemployed Graduates classified by Occupations.

| <i>Unemployed graduates classified by occupations</i> | Q3-2023 | Q1-2024 |
|--|----------------|----------------|
| Business, Administration, & Associate Professionals | 8288 | 10789 |
| Building and related trades workers | 7141 | 7864 |
| Health and Associated professionals | 6713 | 7586 |
| Hotel retailers and other Service Workers | 6365 | 5248 |
| Legal, Social, Cultural, Associate Professionals | 5532 | 4672 |
| Primary, Pre-Primary, TVET Teachers | 3731 | 4606 |
| Stationary Plant and Machine Operators | 2125 | 4299 |
| Business and Administration Professionals | 2174 | 4140 |
| Information and Communications Technicians | 1557 | 3837 |
| Engineering and related professionals | 1624 | 3130 |

Source: Statistics Botswana, Quarterly Multi-Topic Survey 2024

2.5 Tertiary Education Enrolments

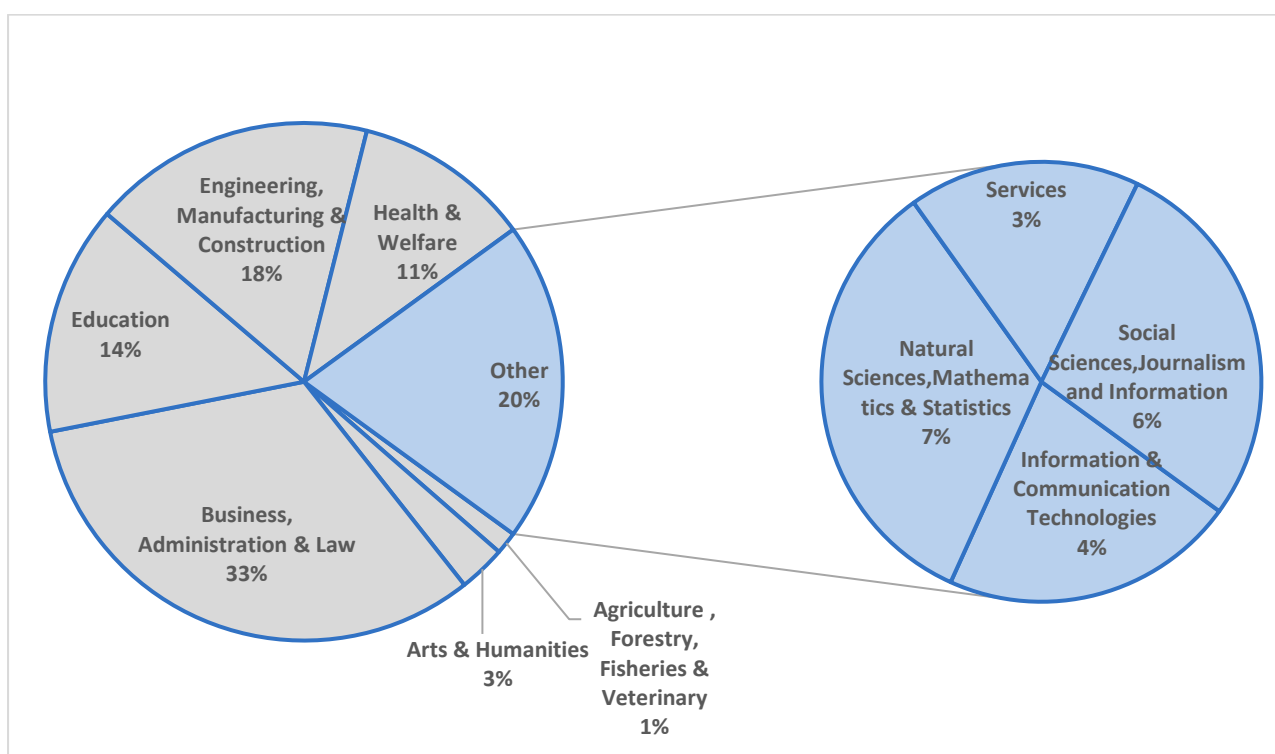

- 2.5.1 Figure 5 shows that most of the students are enrolled in Business, Administration and Law fields across all the universities and colleges.
- 2.5.2 As stated in **paragraph 2.4.2** and shown on Table 5 most of the programmes accredited by Botswana Qualification Authority (BQA) are in Finance and Business Administration. Most of the ETP's offer programmes in Finance and Business Administration as this area is less capital intensive as compared to STEM and TVET fields that needs infrastructure and specialised facilities.

Table 5: NCQF Registered Qualifications by Fields of Learning

| Field of Learning | Number of Qualifications |
|--|---------------------------------|
| Generic Skills | 1 |
| Mining | 7 |
| Law and Security | 28 |
| Physical Planning and Construction | 39 |
| Services | 44 |
| Culture, Arts and Crafts | 56 |
| Natural, Mathematical and Life Sciences | 56 |
| Agriculture and Nature Conservation | 62 |
| Information and Communication Technology | 65 |
| Humanities and Social Sciences | 76 |
| Health and Social Services | 96 |
| Education and Training | 100 |
| Manufacturing, Engineering and Technology | 136 |
| Business, Commerce and Management Services | 228 |
| Grand Total | 994 |

Source: www.bqa.org.bw

Figure 5: Tertiary Education Enrolment by Learning Fields (2022)

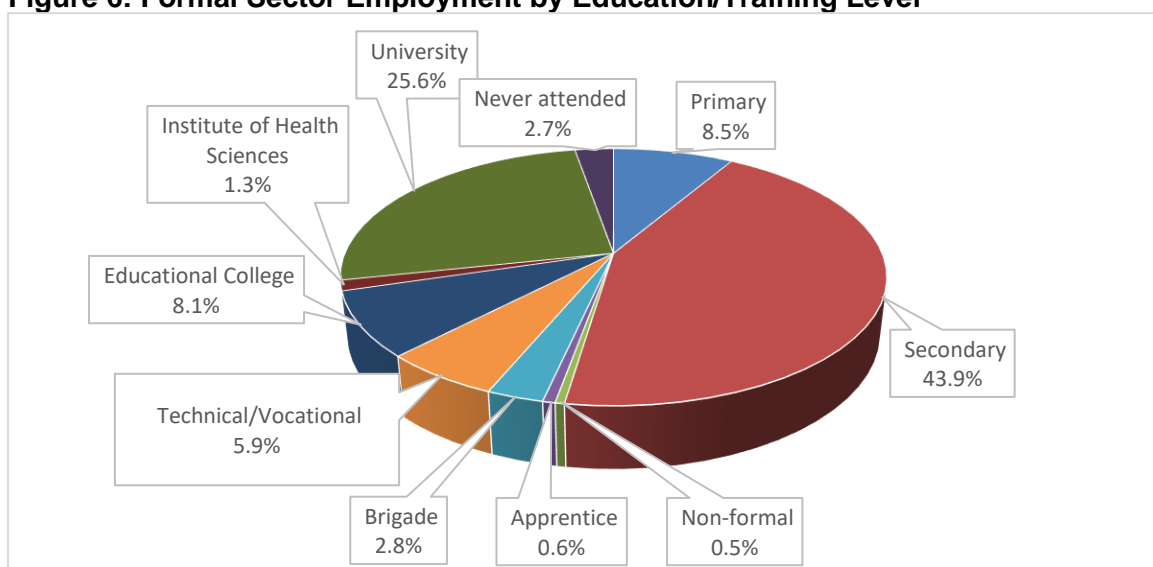

Source: Tertiary Education Statistics 2022

2.6 Structure of the Labour market Force

2.6.1 Figure 6 shows that formal sector employment is dominated by workers with secondary qualification (43.9%) indicating that most of the employers require semi-skilled to unskilled workers. Therefore, if high-end quality jobs that require skilled workers are not created then our country will continue to experience an increase in the unemployment rate for graduates.

Figure 6: Formal Sector Employment by Education/Training Level

Source: Tertiary Education Statistics 2022; Statistics Botswana, Quarterly Multi-Topic Survey Report- Q1, 2024

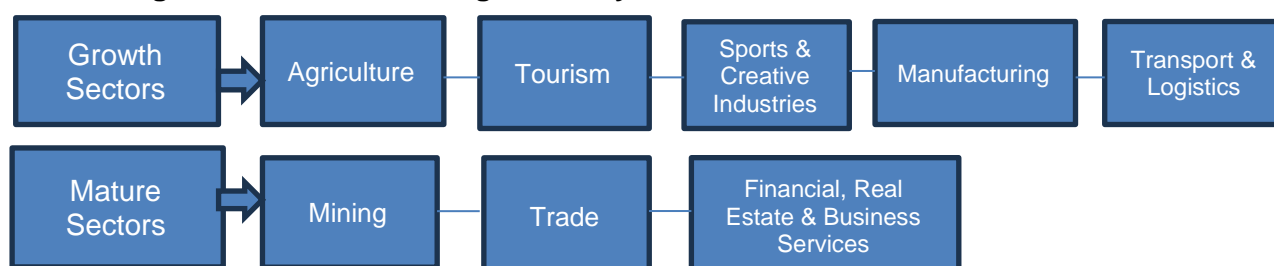

Chapter 3: Priority Skills

3.1 Introduction

3.1.1 **Priority Skills** are skills that are informed by the strategic direction of the socio-economic development of a country. The country needs a skilled workforce to drive the economic growth and diversification. Botswana Qualification Authority (BQA) will use the priority skills to consider the approval and accreditation of new qualifications and programmes. The Education Training Providers (ETPs) will also use the priority skills to pro-actively review the curriculum and develop new programmes that responds to the emerging and future skills demands of the local and global economies.

3.1.2 **Priority Sectors**- A sector-based strategy is an approach that focuses on specific industries or sectors of the economy to drive economic growth, development, and competitiveness. It involves identifying key sectors that have potential for high growth, competitive advantage, job creation, export, and positive spillover effects on the overall economy (National Transformative Strategy, 2023-2030, pp13). The strategy has identified eight priority sectors.

Figure 7 illustrates the Eight Priority Sectors

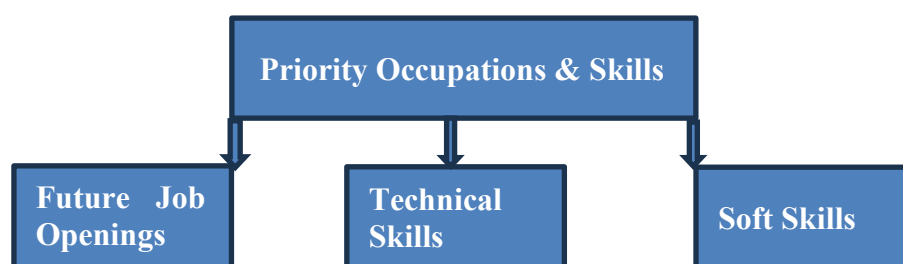

3.1.3 **Criteria for Priority Skills**- The identification of priority skills is informed by the strategic direction of the sectors and other factors that drive socio-economic development of the country. Therefore, critical factors that informed the priority skills include:

- Vision 2036
- National Transformative Strategy (2023- 2030)
- Draft National Development Plan 12
- 2024 State of the Nation Address (SONA)
- 2025/26 Budget Speech
- Value Chain Development
- Sector Linkages
- Digital Economy (Fourth Industrial Revolution)
- Green Economy (Sustainable Environment and Climate Change)

3.1.4 **Priority Occupations and Skills**- These include the Future Job Openings, Technical Skills (Top-up Skills) and Soft Skills as illustrated in Figure 8

Figure 8: Priority Occupations and Skills

3.1.4.1 Future Job Openings (Occupations)- are jobs that will be created in the next two or three years as the sectors implement their key projects in the National Transformative Strategy and National Development Plan (NDP 12). These occupations inform curriculum review and development of new programmes.

3.1.4.2 Top Up Skills (Technical Skills)- are skills that existing workers need due to the emergence of technological disruptions, climate change and other environmental factors, among others. The workers are either re-tooled or up skilled to ensure that they have relevant and competitive skills needed in the sector. These Technical Skills can be used to update the existing educational programmes.

3.1.4.3 Soft Skills- These are skills needed to ensure that the workers are productive and provides effective and efficient service delivery.

3.2 Guidelines for using Priority Skills

Table 6: Guidelines for using the Priority Skills report by various stakeholders.

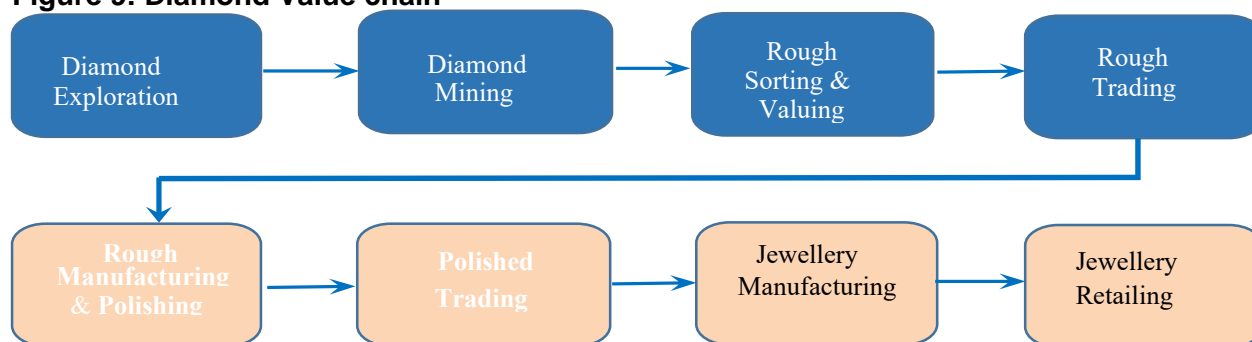

| Type of Skills | Stakeholders |
|------------------------|--|
| Priority Skills | <p>BQA- use the information to consider and approve accreditation of new qualifications and new programmes (short to medium term).</p> <p>ETP- information used for review of the curriculum and development of new programmes that responds to sector's emerging skills as they implement the National Transformation Strategy and NDP 12 (short to medium term). The information is also used by ETP to pro-actively develop the necessary infrastructure and re-tool & up-skills the trainers.</p> <p>DTEF: use the information to determine priority areas for Government sponsorship to ensure that students are sponsored on programs that responds to the national and global market needs.</p> <p>Students- information will be used for career guidance at primary and secondary schools.</p> |
| Top-up-Skills. | <p>Employers- use the information to re-tool and up-skill their employees and leverage on the Human Resource Development Fund (HRDF).</p> <p>HRDC- use the skills to consider and approve Non-Credit Bearing Short Courses</p> <p>ETP & Trainers- use the information to develop new Non-Credit Bearing Short Courses</p> |
| Future Skills | <p>BQA- use the information to consider and approve accreditation of future qualifications and future programmes (long term)</p> <p>ETP- use the information to pro-actively develop future programmes that responds to the future skills and future jobs (long term). The information</p> |

| | |
|---|---|
| | is also used to pro-actively develop the necessary infrastructure and re-tool & up-skills the trainers. Students- information will be used for career guidance at primary and secondary schools with more emphasis on the future career development pathways. |
| Skills Forecasting | DTEF: information used by DTEF to determine the quota(s) for the learning fields and programmes during the award of Government sponsorships to the prospective learners of tertiary education. ETP: information is used by ETP to plan for their future students' enrolments |
| Recommendation Local & External Training | DTEF: information used by DTEF to determine the quotas for the learning fields and programmes during the award of Government sponsorships to the prospective learners of tertiary education. |

3.3 Mining Sector

- 3.3.1 Mining is considered a mature sector which still has opportunities to optimise and innovate for additional growth through mineral beneficiation, digitisation, adopting innovative technologies and developing a waste-to-waste strategy for the sector. The development of the value chains around mining and mineral beneficiation is imperative to diversifying the economy and creating employment (National Transformative Strategy, 2023- 2030).
- 3.3.2 Investment in education and skills development is key to developing minerals value chain development and beneficiation. Skills needs in mining and in downstream industries vary by mineral value chain development.
- 3.3.3 **Mega Projects-** Most of the mines are transitioning to underground mining and this presents an opportunity for new job openings with new skills requirements. Debswana, Khoemacau and Karowe mines have all commenced underground mining transition. Continuous up-skilling of the workforce in the mining sector is imperative due to the emergence of new machinery and technology used in diamond exploration and production levels.
- 3.3.4 **Figure 9** shows the Diamond Value Chain used to map and determine future job openings, current and future skills that are in high demand for the Mining Sector. The other minerals value chain also has similar value chain developments with variations on the post- production stage of the minerals.

Figure 9: Diamond Value chain

3.3.5 Table 7 shows the future job openings in the mining sector which were mapped throughout the various phases of the value chain development.

Table 7 Future Job Openings in the Mining Sector (Value Chain Development)

| EXPLORATION | | PRODUCTION (UNDERGROUND MINING) | |
|-----------------------------|----------------|---------------------------------|----------------|
| Occupation | Training Level | Occupation | Training Level |
| Data Engineers | Degree | Plant Operators | Certificate |
| Geochemists | Post-Graduate | Control and Instrumentation | Certificate |
| Geophysicists/Seismologists | Post-Graduate | Drillers | Certificate |
| Hydrogeologists | Post- Graduate | Heavy Truck Drivers | Certificate |
| Geoscientists | Post- Graduate | Mechanical Eng. Technicians | Diploma |
| | | Chemical Eng. Technicians | Diploma |
| | | Control & Instrumentation Tech. | Diploma |
| | | Ventilation Engineers | Degree |
| | | Control Systems Engineer | Degree |
| | | Robotics Engineers | Degree |
| | | Automation Engineers | Degree |
| | | Big Data Engineers | Degree |
| | | Occupational Hygienists | Degree |
| | | Geotechnical Engineers | Post-Graduate |
| | | Mineral Surveyors | Post-Graduate |
| ROUGH SORTING & TRADING | | MANUFACTURING | |
| Occupation | Training Level | Occupation | Training Level |
| Diamond Sorters & Graders | Certificate | Diamond Polishers | Certificate |
| Diamond Valuers | Degree | Jewellery Manufacturers | Certificate |
| Compliance Officers | Degree | | |
| Commercial Lawyers | Post-Graduate | | |
| Diamond Sales Experts | Post-Graduate | | |
| Mineral Economists Experts | Post-Graduate | | |

3.3.6 **Top-up- Skills:** Table 8 shows the current, emerging, and future skills needed for the minerals value chain development. Employees are either re-tooled or up skilled for the specialized skills needed across the value chain. The workforce is continually re-tooled and up skilled to cope with the emergence of high-tech machinery and other digital and green skills requirements in the

mining sector especially on the new projects that include smart mining and underground mining, among others.

Table 8- Current and Future Skills (Top-up Skills)

| Value Chain Development | Current Skills | Future Skills |
|--------------------------------|----------------------------------|-------------------------|
| Exploration | Remote sensing | Artificial Intelligence |
| | Seismology | Geophysical imaging |
| | Geochemical surveying | Amplitude analysis |
| | Geographic Information System | Drones |
| | Digitisation | |
| | | |
| Production (Mining) | X-Ray Transmission Technology | Artificial Intelligence |
| | Automation | Thermal Imaging |
| | Coded Welding | Drones |
| | Metallurgy | |
| | Digitisation | |
| | Big data analysis | |
| | | |
| Sorting and Valuing | Sorting | |
| | Grading | |
| | CAD & CAM | |
| | | |
| Trading and Sales | Negotiation & Lobbying | Digital Marketing |
| | Tariff analysis & Tariff setting | Digital Sales |
| | | |
| Diamond Manufacturing | Planning and Sorting | Brilliantteering |
| | Polishing & cutting | |
| | Valuation | |
| | CAD & CAM | |
| | | |
| Jewellery Manufacturing | Model making and casting | Artificial Intelligence |
| | Rubber moulding & waxing | |
| | Grinding and filing | |
| | CAD & CAM | |

3.3.7 Recommendation for Training for the mining sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.4 Energy Sector

3.4.1 Energy is essential for promoting growth and innovation in sectors such as mining, agriculture, and manufacturing. Diversifying the country's energy sources will ensure a more secure and reliable supply of energy. Due to its high solar irradiation, Botswana has a potential to be a producer and exporter of solar energy. Therefore, investment in renewable energy can lead to job creation in the energy sector (National Transformative Strategy, 2023- 2030).

3.4.2 Government through the 2024 State of the Nation Address (SONA) has prioritised supporting the development of skilled workers to install and maintain solar power systems and other renewable energy systems.

3.4.3 **Mega Projects-** Diversifying the national energy mix that includes integration of new and renewable energy sources such as solar, biofuels, coal bed methane, wind, and waste to meet the local demand and be a net exporter. To this end, the energy sector has prioritised the independent power resource producers' program, roof top solar project and biogas program to be implemented during NDP 12.

3.4.4 **Table 9** shows the future job openings that will be created during the implementation of the National Transformative Strategy and NDP 12.

Table 9 Future Job Openings in the Energy Sector (Value Chain Development)

| EXPLORATION & GENERATION | | TRANSMISSION & DISTRIBUTION | |
|------------------------------|----------------|-------------------------------|----------------|
| Occupation | Training Level | Occupation | Training Level |
| Solar Photovoltaics Green | Certificate | Masons Operators | Certificate |
| Electrical Eng. Technicians | Diploma | Renewable Energy Installers | Certificate |
| Maintenance Technician | Diploma | Renewable Energy Technician | Diploma |
| Thermography Technician | Diploma | Renewable Energy Installation | Diploma |
| Power Plant Laboratory Tech. | Diploma | Renewable Energy Installation | Degree |
| Chemical Engineers | Degree | Quality Control Specialist | Post-Graduate |
| Occupational Hygienists | Degree | | |
| Renewable Energy Engineers | Degree | | |
| Power Plant Lab. Engineer | Degree | | |
| | | | |
| TRADING & CONSUMPTION | | | |
| Occupation | Training Level | Occupation | Training Level |
| Compliance Officers | Degree | | |
| Commercial Lawyers | Degree | | |
| Digital Marketing & Sales | Degree | | |
| Cybersecurity Analysts | Degree | | |
| Big Data Engineers | Degree | | |
| Energy Modelers | Post-Graduate | | |

3.4.5 **Top -up- Skills:** There is a high demand for green skills as evidenced by an increase in the use of solar energy and other renewable source of energy in Agriculture, Mining and Manufacturing. Table 10 shows the current, emerging, and future skills needed for the energy value chain development. Employees are either re-tooled or up skilled for the specialized skills needed across the value chain.

Table 10- Current and Future Skills (Top-up Skills)

| Value Chain Development | Current Skills | Future Skills |

| Trading & Consumption | Energy Modelling & Analysis | Digital Marketing |
| | Negotiation & Lobbying | Digital Sales |
| | Tariff Analysis & Tariff Setting | Financial modelling |
| | Data Analytics | |
| | Digitisation | |

3.4.6 **Recommendation for Training** for the energy sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.5 Manufacturing Sector

3.5.1 Government in partnership with the Private Sector will create mega-manufacturing industries to drive economic growth, job creation and increased incomes by leveraging on the sector's immense potential for productivity improvements, transitioning from low-value to high-value activities. Given the small size of Botswana's population, economy, and domestic market, it is inevitable that high and sustained manufacturing growth will have to be export-driven (National Transformative Strategy, 2023- 2030).

3.5.2 **Mega Projects:** Development of value chains with special focus on mineral beneficiation, food processing, pharmaceutical manufacturing, and automotive manufacturing (e.g. electric vehicle). These prospective industries will create jobs and development of future skills on the use of high-tech machinery and other digital skills is imperative.

3.5.3 **Table 11** shows the future job openings in the manufacturing sector that will be created during the implementation of the National Transformative Strategy.

Table 11: Future Job Openings in the Manufacturing Sector

| LEATHER PROCESSING | | TEXTILE & CLOTHING | |
|-------------------------------|-----------------------|--------------------------------|-----------------------|
| Occupation | Training Level | Occupation | Training Level |
| Tanners | Certificate | Machine Operators | Certificate |
| Leather Technicians | Diploma | Industrial Machinists | Certificate |
| Leather Chemists | Degree | Spinning Technicians | Diploma |
| Leather Technologists | Degree | Textile & Clothing Technicians | Diploma |
| Leather Designers | Degree | Textile Designers | Degree |
| Researchers | Post-Graduate | Textile Technologists | Degree |
| | | Button Manufacturers | Post-Graduate |
| | | | |
| SODA ASH & SALT | | PHARMACEUTICAL | |
| Occupation | Training Level | Occupation | Training Level |
| Electrician Artisan | Certificate | Health Care Auxiliary | Certificate |
| Machinist | Certificate | Industrial Pharmacy Technician | Diploma |
| Draughts Persons | Diploma | Industrial Pharmacist | Degree |
| Quantity Surveyor | Degree | Pharmaceutical Scientists | Degree |
| Reliability Engineer | Degree | Toxicologist | Post-Graduate |
| Mechanical (Plant) Engineer | Degree | Geriatric Pharmacists | Post-Graduate |
| Hydrogeologist | Degree | | |
| Quality Assurance & Standards | Post-Graduate | | |

3.5.4 Top-up Skills: Table 12 shows the current, emerging, and future skills needed for the manufacturing value chain development. Employees are either re-tooled or up skilled for the specialized skills needed across the value chain. There is a window of opportunity in the manufacturing sector for re-tooling and up-skilling to be extended to the unemployed youth and elders in the community. In return for this investment the youth can form companies and compete for part-time jobs in the households, business enterprises, and government departments.

Table 12- Current and Future Skills (Top-up Skills)

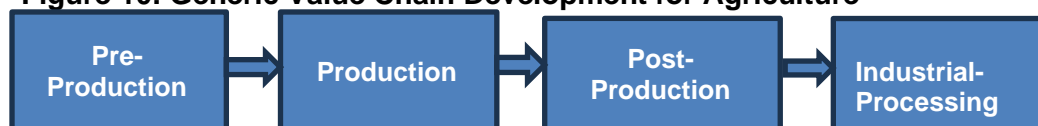

| Value Chain Development | Current Skills | Future Skills |
|--------------------------------|------------------------------|-------------------------|
| Leather Processing | Automation | Artificial Intelligence |
| | | |
| | Computer Aided Manufacturing | |
| | | |
| Textile & Clothing | Packaging and branding, | Grey Fabric Dye |
| | Entrepreneurial Skills | Visual Merchandising |
| | Machine Maintenance | Yarn Spinning |
| | Fabric Knowledge | Garment Manufacturing |
| | Occupational Health & Safety | |
| | Quality Standards | |
| | | |
| Soda Ash & Salt | Coded Welding | Artificial Intelligence |
| | Health and Safety awareness | |
| | | |
| Pharmaceutical | Market research | Machine e-Learning (ML) |
| | Project Management | |
| | Quality assurance | |
| | Packaging and Labelling | |

- 3.5.5 **Recommendation for Training** for the manufacturing sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.6 Agriculture Sector

- 3.6.1 Agriculture is a potential growth sector that is in transition from a subsistence to commercial farming with scaled production. The aim is to promote commercial agriculture, move away from highly subsidised, fragmented and subsistence agriculture, and re-organise the agriculture sector to realise the potential for high economic impact in job creation (National Transformative Strategy, 2023- 2030).
- 3.6.2 The use of high-tech machinery, drones and other technologies in agriculture is gradually transforming the sector from a subsistence to commercial farming. Therefore, the sector needs TVET skills, high-tech skills, and green skills development to unlock value chain development from production to industrial processing (agro- processing).

Figure 10: Generic Value Chain Development for Agriculture

- 3.6.3 **Mega projects:** In its endeavour to improve food security through the development value chains, the Ministry of Agriculture has prioritized the following key projects: Selibe Phikwe Economic Development Unit (SPEDU) Projects, Pandamatenga Special Economic Zone, Milk Africa, Ramatlabama Artificial Insemination Centre, etc. As new jobs are created there is need to plan for both emerging and future skills development.
- 3.6.4 To assist and encourage Batswana to transit from subsistence to commercial farming, Government introduced Temo Letlotlo, Thuo Letlotlo and Majaikgorosa. This transition requires Batswana to be equipped with modern methods of farming and hence re-tooling and up-skilling of farmers is of paramount importance.
- 3.6.5 Table 13 shows the future job openings in the agriculture sector which were mapped throughout the various phases of the value chain development.

Table 13 Future Job Openings - Agriculture Sector (Value Chain Development)

| CROP HUSBANDRY | | CROP HUSBANDRY | |
|-----------------------------|----------------|------------------------------------|----------------|
| PRE- PRODUCTION | | PRODUCTION | |
| Occupation | Training Level | Occupation | Training Level |

3.6.6 Recommendation for Training for the agriculture sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new

organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.7 Tourism Sector

3.7.1 Tourism is anticipated to be a major growth sector. The tourism industry will be diversified to provide economic growth and employment opportunities for local communities. Diversification of the sector will be achieved through specialised marketing, product development and diversification, skills development, development of suppliers, infrastructure development and improved general coordination (National Transformative Strategy, 2023- 2030).

3.7.2 **Mega Projects:** These include Meetings, Incentives, Conferences, and Exhibitions (MICE); Leveraging on Technology to improve service delivery and product development; astro-tourism (low impact tourism); share prosperity projects under tourism, development of specialised digital marketing and sales platforms and continuous re-tooling and up-skilling of tourism workforce.

3.7.3 Table 14 shows the future job openings that will be created in the tourism sector during the implementation of the National Transformative Strategy.

Table 14: Future Job Openings in the Tourism Sector

| OPERATIONS & SERVICES | | TECHNOLOGY(4IR)-FUTURE JOBS | |
|-----------------------------------|----------------|-------------------------------|----------------|
| Occupation | Training Level | Occupation | Training Level |
| Professional Hunters/Guides | Diploma | Digital Branding & Marketers | Degree |
| Professional House Keepers | Certificate | AI Data Analyst | Degree |
| Certified City Tour Guides | Diploma | AI Solutions Architect | Degree |
| Certified Cultural Tour Guides | Diploma | AI Ethics Consultant | Degree |
| Gastronomy Tour Guides | Diploma | | |
| Astro Tour Guides | Diploma | | |
| Artifacts Guides | Diploma | | |
| Ecotourism Guides | Diploma | | |

| Event Planners | Degree | Environmental Policy Analyst | Degree |
| Travel Planners | Degree | Adventure/sustainable Tourism | Degree |
| Foreign Language Translators | Degree | Ornithologists | Degree |
| Tourism Entrepreneurs | Degree | | |

3.7.4 **Top -up Skills:** The Tourism Sector will leverage on technology to improve their services and products. To this end the sector will prioritise up-skilling of

the workers on the latest high-tech skills. The success of tourism rest in sustainable environmental management and hence the need to up-skill workers on the green skills. Table 15 shows the current, emerging, and future skills needed for the tourism sector.

Table 15: Current and Future Skills

| Current Skills | Future Skills |
|--|------------------------------------|
| Storytelling | Machine learning and AI algorithms |
| Cultural sensitivity | Data protection and cyber security |
| Foreign languages translation | Sensitive data processing |
| Digital currency | Blockchain |
| Digital marketing and branding | Knowledge of retrofitting |
| Data analysis, research, and market intelligence | Carbon management |
| Customer experience management | |
| Sustainability certification | |
| TedQual certification | |
| Biodiversity and sustainability management | |
| Resource-efficiency management | |

3.7.5 Recommendation for Training for the tourism sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.8 Trade Sector

3.8.1 Trade has the potential to be a growth sector through digital transformation, innovation, and diversification. Trade in diamond commodities has reached maturity while trade in other commodities and services still needs to be developed. Given its location, Botswana will position itself as a trade hub. (National Transformative Strategy, 2023- 2030).

3.8.2 Botswana is party to several trade agreements which grant preferential markets access to local exports. The country's membership to the African Continental Free Trade Area (AFCFTA) presents new opportunities for domestic firms to access a larger regional market and to potentially participate in Global Value Chains (GVCs).

3.8.3 Key Projects: These include diversification of the economy through priority commodities and services per sector, ease of doing business, and leveraging on technology to transform commodities and services.

3.8.4 Table 16 shows the future job openings in the trade sector that will be created during the implementation of the National Transformative Strategy

Table 16: Future Job Openings in the Trade Sector

| | |
|---------------------------------|--------------------------------|
| Trade Negotiations | Trade lawyers |
| Forensic Auditors | Business Intelligence Analysts |
| Market Research Analysts | Big Data Analysts |
| Business Development Managers | Products Design Specialists |
| Innovation Strategy Specialists | |

3.8.5 Top-Up Skills: There is urgent need to up-skill and re-tool the workforce for the trade sector to cope with technological disruptions and geopolitics that impact on global trade negotiations. Table 17 shows the skills in demand for the Trade Sector

Table 17 Skills in Demand for the Trade Sector

| ECONOMIC DIVERSIFICATION | | EASE OF DOING BUSINESS |
|----------------------------------|--|---|
| Trade Negotiations | | Contract Management |
| Research | | Networking and Interface |
| Strategic Management | | Teamwork |
| Financial Management | | Emotional Intelligence |
| Impact Assessment | | Leadership |
| Fraud Investigation | | |
| Advanced Public Speaking | | |
| Data Analysis | | |
| Mandarin (Chinese language) | | |

| Automation | | Applied Research |
| Digital Platforms | | Commercialisation |
| | | Business Modelling |
| | | Monitoring and Evaluation |

3.8.6 Recommendation for Training for the trade sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.9 Transport and Logistics Sector

3.9.1 Transport and Logistics is a potential growth sector and is supportive of increased trade and improved economic efficiency, maximising the benefits of Botswana's strategic location in the centre of Southern Africa. It can lead to

direct job creation in the sector and facilitate job creation in the other sectors (National Transformative Strategy, 2023- 2030).

3.9.2 Mega Projects: These include the Transport Special Economic Zone projects, e.g. Airport City Logistics; Infrastructure Development for Transport and Logistics Sector; Integration of air, rail, and road with digital communications; North- South Corridor with Zambia; North-East and North-West Corridor with Namibia-Mozambique connecting to the Zambian Link. These projects have a potential of job creation once implemented under the National Transformative Strategy.

3.9.3 Table 18 shows the future job openings that will be created during the implementation of the National Transformative Strategy.

Table 18: Future Job Openings in the Transport and Logistics Sector

| AIRPORT CITY LOGISTICS HUB (SEZA PROJECTS) | | DIGITAL COMMUNICATIONS | |
|---|-----------------------|-------------------------------|-----------------------|
| Occupation | Training Level | Occupation | Training Level |
| Heavy Plant Mechanics | Certificate | ICT Technicians | Diploma |

| Civil Engineers | Degree | Telecommunication Engineers | Degree |
| Signals Telecommunicators | Degree | Operations Specialists | Degree |
| Terminal Manager | Degree | | |
| Transport Logistics | Degree | | |
| Freight Village Managers | Degree | | |
| Transport Planners | Post-Graduate | | |
| Transport Economists | Post-Graduate | | |

3.9.4 **Recommendation for Training** for the transport and logistics sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.10 Sports and Creative Industries

3.10.1 The Sports and Creative Industries are potential growth sectors in the knowledge economy with high job creation opportunities that will create wealth, especially for the youth. For this sector to grow, there is a need to be creative, cultivate and preserve culture, Indigenous knowledge, and talent for commercialisation, thereby ultimately contributing to economic growth. Botswana can be a continental cultural hub and sports centre (National Transformative Strategy, 2023- 2030).

3.10.2 **Projects-** The key projects include up-skilling and re-tooling the sports and creative industries practitioners to equip them with business and entrepreneurial skills to create new jobs.

3.10.3 **Table 19** shows the potential future job openings in the sports and creative industries sector.

Table 19: Future Job Openings in the Trade Sector

| | |
|-----------------------------|-----------------------------|
| Tapestry Weavers | Cinematographers |
| Yam Splinter | Curators |
| Painters and Drawers | Script Supervisors |
| Film Producers | Muralists |
| Film Distributors | Creative Coding |
| Film Editors | Content Creators |
| Gaffer | Film Props Designers |
| Content Writers | Digital Marketing and sales |
| Directors for the Creatives | Digital Branding |

3.10.4 The emergence of the fourth industrial revolution has transformed the sports and creative industries sector. The sector is already leveraging on technology to improve their services and products. Table 20 shows the skills in demand in the creative industries sector.

Table 20: Skills in Demand in the Sports and Creative industries Sector

| Current Skills | Future Skills |
|------------------------------|------------------------------|
| Collaboration | Digital Marketing and Sales |
| Communication | Artificial Intelligence (AI) |
| Leadership | Big Data Analysts |
| Negotiation | Digital Designers |
| Critical thinking | Audience Surveying |
| Product design | |
| Creativity | |
| Equipment management | |
| Organizational skills: | |
| Events management | |
| Knowledge of IP Laws | |
| Copyright laws and Standards | |
| Marketing | |
| Financial Management | |
| Budgeting | |
| Mobilization | |

3.10.5 **Recommendation for Training** for the sports and creative industries sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

3.11 Financial, Real Estates and Business Services

3.11.1 Financial, Real Estate and Business Services Sector is considered a mature sector. However, there are opportunities for improved access to private sector credit markets, increased sophistication of capital markets, and roll out of financial technology (fintech) in the financial service industry (National Transformative Strategy, 2023- 2030).

3.11.2 **Projects-** The Finance, Real Estate and Business Services sector is leveraging on technology to improve their service delivery and product development. To this end, new job openings are emerging that requires specialised digital and business services skills.

3.11.3 The Knowledge-Intensive Business Services(F&KIBS) provide inputs based heavily on advanced technological and professional knowledge to business processes of other organizations. Innovative and specialised F&KIBS industry requires development of diverse skills to promote competitiveness.

3.11.4 Table 21 shows the future job openings that will be created during the implementation of National Transformative Strategy.

Table 21: Future Job Openings in the Finance, Real Estate & Business Services

| Occupation | Training Level | Occupation | Training Level |
|--------------------------------|----------------|----------------------------------|----------------|
| Printing Technician | Diploma | Data Scientists | Degree |
| Procurement Specialists | Degree | Cloud Computing Engineers | Degree |
| Buyer (procurement oversight) | Degree | Robotic Engineers | Degree |
| Risk Officers | Degree | Big Data Analysts | Degree |
| Software Developers | Degree | Automation Engineer | Degree |
| Business Intelligence Analysts | Degree | Behavioral Scientists | Degree |
| Actuarial | Degree | Artificial Intelligence Engineer | Post-Graduate |
| Tax Specialist | Degree | Forensic Accounting/Audit | Post-Graduate |
| Fintech Analysts | Degree | IT Auditor | Post-Graduate |
| Financial Services Supervisors | Degree | Investment Principal | Professional |
| Underwriter (short-term) | Degree | Investment Analyst | Professional |
| Auctioneer | Degree | Financial Analyst | Professional |
| Quantity Surveying | Degree | Financial Engineer | Professional |
| Property Valuers | Degree | Financial Planner Experts | Professional |
| Estate Agents | Degree | Collective Investment Analyst | Professional |
| Cyber Risk Managers | Degree | Energy Auditors | Professional |
| Facility Manager | Degree | Chartered Accountants | Professional |
| Asset Manager | Degree | Portfolio Manager | Professional |

3.11.5 Top -up- Skills: The emergence of the fourth industrial revolution has accelerated the need to up-skill and re-tool the workforce to cope with new demands and disruptions caused by technology. Table 22 shows the specialised skills in demand for the finance, real estate, and business services sector.

Table 22: Skills in Demand in the Finance, Real Estate, and Business Services

| Current Skills | Future Skills |
|----------------------|-------------------------|
| Financial Technology | Artificial Intelligence |
| Printing Origination | Robotics Technology |
| Machine Printing | |
| Printing Electronics | |
| Printing Mechanics | |

3.11.6 Recommendation for Training for the financial, real estates and business services sector is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

Chapter 4: TVET for Sustainable Economic Development

4.1 Introduction

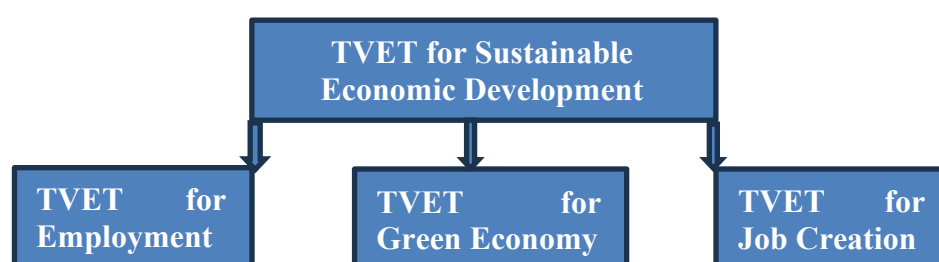

4.1.1 Technical and Vocational Education Training (TVET) is not just an educational pathway, but its strategic investment in human capital. By equipping individuals with the industry's needs, TVET enhances the productivity and employability of the workforce, making it a vital driver of sustainable economic growth (UNESCO Strategy for TVET, 2022-2030). By providing technical skills and business acumen, TVET can empower individuals to start their own ventures, further contributing to job creation. The demand for green skills and green jobs for sustainable energy solutions presents an opportunity for development of technicians and repairers at the TVET institutions (UNESCO-UNEVOC, 2023).

4.1.2 When presenting the 2024 State of the Nation Address (SONA), the President emphasised the role of TVET in developing a sustainable economic development when he said:

“We will launch nation-wide vocational training programs and create apprenticeship opportunities to empower young people with hands-on skills for the workforce. Additionally, we will provide small business grants to encourage youth entrepreneurship and innovation”.

4.1.3 Figure 11 shows strategic themes that will guide development of TVET skills for sustainable economic development.

Figure 11: TVET for sustainable economic development

4.1.4 Given the existing problems of unemployment and the significant pressure on future employment, it is critical to develop TVET skills that will enable individuals to compete for opportunities available for employment and job creation in the local and global market. Table 23 therefore present the TVET skills that are in high demand:

Table 23: TVET Skills in High Demand

| TVET Skills for Employment | TVET Skills for Green Economy | TVET Skills for Job Creation |
|--|--------------------------------------|-------------------------------------|
| Coded Welding | Solar Energy Technicians | Entrepreneurship |
| Machine Repairers | Solar Energy Repairers | Creativity |
| Maintenance Technicians | Wind Service Technician | Innovation |
| Specialised Machine Operators | Wind Turbine Operator | Business Management |
| Hydraulics | Waste Recycling Operator | Digital Branding |
| Mechatronic Technicians | Wind Energy Repairers | Digital Marketing & Sales |
| Millwright Artesian | Solar energy entrepreneur | Collaboration |
| Heavy duty maintenance specialist | Wind energy entrepreneur | Social Media Analyst |
| Boilermakers | Carbon trader/broker | Content Creator |
| Scaffolding and Rigging | Smart Energy Technician | Data Analysts |
| Bricklayers (<i>Robotic Bricklaying</i>) | Eco-Designer | Business Modelling |
| Chefs (including Specialists) | Recycling Technician | Creative Writing |
| Tour Guides (including Specialists) | Environmental Technician | Proposal Writing (Tenders) |

4.1.5 **Recommendation for TVET Training** across various sectors and fields of learning is provided for in Appendix 1. It includes a comprehensive list of occupations and skills needed for filling vacancies, replacements, new job openings for both existing and new organisations. The occupations have been aligned to the training programmes to determine recommendation for internal and external training.

Chapter 5: Global Future Skills and Future Jobs

5.1 Introduction

- 5.1.1 Botswana through VISION 2036 has committed to **developing an internationally competitive workforce that is productive, creative and has international exposure**. Continuous foresight analysis enhances development of medium to long term skills plans' that will guide the development of future skills for the future jobs.
- 5.1.2 A globally competitive human resource will drive the development of a diversified economy with a capacity to sustainably create decent jobs and improve the socio-economic status of Botswana.
- 5.1.3 According to the 2024 World Economic Forum Report, the Fourth Industrial Revolution has accelerated the pace of adoption of technologies and shifted the frontier between humans and machines across sectors and nationalities around the world.
- 5.1.4 **Future Skills and Future Jobs:** To cope with technological disruptions caused by the fourth industrial revolution the world is prioritising the development of future skills for the **green economy, digital economy, and care economy** (Global Job Skills Report, 2024).

5.2 The Green Economy

- 5.2.1 Many existing jobs will require green skills, as companies across sectors adopt more environmentally sustainable practices and develop sustainable targets for compliance and reporting. According to the 2024 Global Skills Report the global demand for the skills in the green infrastructure and mobility domain has grown by approximately 200% from 2018 to 2021. Table 24 shows the emerging green domain and skills for the green economy.

Table 24: Emerging Green Domain and Skills

| Domain | Occupation | Technical Skills |
|--|---|---|
| Energy, Resource Circularity and Decarbonisation | *Solar Photovoltaic Engineer *Energy System Engineer *Automation Engineer *Food Safety Specialist *Food Technologists *Quality Assurance and Control Specialists | *Renewable Energy System Management and Integration *Solar photovoltaic Energy Assessment *Farming Implementation and Management *Food processing and management |

| | | |
|---|--|--|
| | | *Farming Business Development and Management |
| Green Infrastructure and Mobility | *Architect Specialists *Building Supervisors *Automotive Electric Technician *Automotive maintenance and repairs | *Climate- mitigation features in Built Environment *Green Facilities Management *Hybrid Electric Vehicle Maintenance and Repairs and Management |
| Environmental and Sustainability Management | *Health, Safety & Environmental Manager *Smart Facilities Managers Engineering Managers *Solar Photovoltaic Development Engineer *Process Engineer *Health, Safety & Environmental Engineer | *Green facilities management *ESG- Environmental, Social & Governance *SHEQ-Safety Health, Environmental and Quality *Sustainable process engineering |
| Sustainable Finance | *Investment managers *Investment Analysts *Credit and Risk Managers *Digital Sales, Marketing Specialists | *Carbon Markets and Decarbonisation Strategists management *Sustainable Investment Management *Impact Indicators, Measurement & Reporting |

*World Economic Forum report, 2024.

5.2.2 Unlocking Opportunities for Skills Development and Job Creation in the Botswana's Green Economy

5.2.2.1 Government has prioritised development of the green economy in the National Transformative Strategy (NTS). The 2024 State of the Nation Address (SONA) highlighted key initiatives that are critical in developing the green economy and thereby presenting an opportunity for job creation and skills development. Table 25 shows opportunities available for skills development and job creation in Botswana's Green Economy.

Table 25: Unlocking Opportunities in Botswana's Green Economy

| Extracts from SONA & NTS | Key Projects in NTS and NDP 12 | Opportunities for Skills Development & Job Creation |
|--|--|--|
| Environmental, Social and Governance (ESG) Strategy- Government will launch and implement the National ESG Strategy that focuses on environmental sustainability, climate change and green finance. | The ESG Strategy cuts across various sectors and priority will be given to renewable energy, waste management and conservation. | *Develop future green skills in Environmental & Sustainability Management and Sustainable Finance (Ref. Geen Skills shown in Table 24) * There is opportunity for the green jobs as both the public and |

| | | |
|--|---|---|
| | | private sector are considering compliance to the ESG reporting. |
| Renewable Energy: Government will invest in renewable energy projects such as solar, wind and bioenergy and hence reducing reliance on fossil fuels. | *Smart Mining- Most of the mines are gradually shifting towards the use of renewable energy and technology to drive implementation of their strategies that includes underground mining and open cast mining . * The demand for solar energy is also increasing in Agriculture and Manufacturing. | *The demand for renewable energy skills is increasing especially in Mining, Energy, Agriculture and Manufacturing (Ref. Green Skills in Table 24) * There is an opportunity for transforming TVET with specific focus on developing green skills for both employment and job creation * Currently there is high demand for repairers and technicians for solar energy in Agriculture and Mining . |
| Conservation of Natural Resources- Government will prioritise policies focused on environmental protection, climate change mitigation and sustainable resource management | *NTS- Government will expand efforts to protect Botswana's unique wildlife and ecosystems. Eco-tourism will play a vital role in both preserving our environment and generating sustainable income for local communities | *There is an opportunity for Universities and TVET institutions to develop new programmes on Environmental and Sustainability Management (Refer to Table 24 on green skills). |

5.3 The Digital Economy

5.3.1 Riding on the post-COVID 19 wave, the need for digital skills and jobs continue to see the high demand. According to the 2023 Microsoft Annual Report, the estimated number of technology-oriented jobs in the world will increase to 190 million in 2026. Table 26 shows the emerging digital domain and skills for the digital economy.

Table 26: Emerging Digital Domain and Skills

| Domain | Occupation | Technical Skills |
|--|---|--|
| Artificial Intelligence (AI), Data & Analytics | *Artificial Intelligence Applied Researcher *Data Scientists *Big Data Analytics Specialists | * Artificial Intelligence Application Research and Information System *Big Data Analytics *Data facilities Management |
| Cloud, Systems, and Infrastructure | *Radio Frequency Engineer *Artificial Intelligence Engineer *Infrastructure Engineer *Infrastructure Architect *Infrastructure Technicians *Data Architect | *Radio Frequency Engineering *Data Visualisation *Infrastructure Design *Infrastructure Management |

| | | |
|---------------------------------------|---|---|
| | *Data Centre Operating Engineer | *Automated Maintenance & Repairs |
| Cybersecurity and Risk Management | *Health, Safety & Environmental Manager *Smart Facilities Managers Engineering Managers *Solar Photovoltaic Development Engineer *Process Engineer *Health, Safety & Environmental Engineer | *Security Governance *Data Protection Management *Cyber Risk management *Cyber and Data Breach Incident Management |
| Software Development | *Quality Assurance Tester *Vulnerability Assessment and Penetration Testing Analyst *Application Support Engineer *Product Designers *Associate Software Engineer *Software Architect *Embedded System Engineer *Software Engineer | *Software Design *Software Testing *Solution Architect *User Experience Design * |
| E-Commerce and Digital Marketing | *E-Commerce Manager *Digital Marketing & Sales Experts *Merchandising Specialists *Product Development Manager *Principal Service Designer | *E-Commerce *Digital Marketing *Merchandising *Digital Designing *Product Development *Interaction Design practise |
| Technology Application and Management | *Technology Application Researchers *Technology Engineers | *Emerging Technology Scanning *Technology Analysts |

*World Economic Forum report, 2024

5.3.2 Unlocking Opportunities for Skills Development and Job Creation in the Botswana's Digital Economy

- 5.3.2.1 Government has prioritised digitisation to automate services to improve service delivery. To this end, priority will be given to the development of the ICT infrastructure to enable both the public and private sectors to leverage on technology to increase productivity levels for economic growth and diversification. Table 27 shows opportunities for skills development and job creation in Botswana's Digital Economy.

Table 27: Unlocking Opportunities in Botswana's Digital Economy

| Extracts from SONA & NTS | Key Projects in NTS & NDP 12 | Opportunities for Skills Development & Job Creation |
|---|--|--|
| <p>A Smart Botswana will be achieved through investments in the state-of-the-art ICT infrastructure, increased access, and affordable prices. (National Transformative Strategy, pp11)</p> <p>Fourth Industrial Revolution-Government is committed to working with local and global technology companies to rapidly prepare Botswana for the Fourth Industrial Revolution (State of the Nation Address, pp 20-21)</p> | <p>Key Projects on SONA SpaceX and Starlink have been engaged to invest in ICT infrastructure to accelerate affordable connectivity to the entire country.</p> <p>*Acceleration of Rural Connectivity and School Connectivity programme-The target is to connect three hundred schools by end of 2025.</p> | <p>The Starlink project present opportunities for skills transfer and job creation during the development of the infrastructure for high-speed internet connectivity. Therefore, there is need for development of digital skills in the Cloud, Systems, and Infrastructure domain (Refer to Table 26: digital skills)</p> <p>*This project presents opportunities for Attachments of ICT Unemployed Graduates to gain practical working experience that will make them more competitive in the local and global market.</p> |

5.4 The Care Economy

5.4.1 Preventive care, workplace learning, transformative human resource, learning and development practises, as well as importance placed on mental wellbeing are driving changes to jobs and skills in the care economy. According to the World Health Organisation Report (2024), the number of people aged sixty and above is projected to increase by 40%, creating significant demand for care workers within the care economy due to the rapidly aging population. Table 28 shows the emerging care domain and skills for the care economy.

Table 28: Emerging Care Domain and Skills

| Domain | Occupation | Technical Skills |
|---------------------|--|---|
| Health and Wellness | <ul style="list-style-type: none"> *Occupational Therapist *Speech Therapist Director of Nursing (Clinical) *Senior Staff Care Nurse *Social Worker Experts | <ul style="list-style-type: none"> *Resilience and Self-Care *Health, Hygiene and Nutrition for Children *Health Promotion *Effective Client Communication *Intervention Implementation in Therapy Support |
| Person-Centred Care | <ul style="list-style-type: none"> *Learning and Organisational Manager *Patience Service executive *Learning Solution Specialists | <ul style="list-style-type: none"> *Change Management *Excellence in Service *Human Resource Advisory *Individual Intervention Planning and Implementation |

| | | |
|--------------------------------|--|--|
| Teaching and Learning | *Manager-Performance Rewards *Nurse Manager *Physiotherapist *Learning and Development Specialists *Manager- Talent Management *Psychologists | *Performance Management *Coaching and Mentoring *Career Coaching *Talent Management *Critical Thinking *Learning Needs Analysis |
| Collaboration and Stakeholders | *Childcare Centre Manager *Volunteer Manager *Nurse Clinician *Employee Experience & Relations manager | *Community Partnership *Professional Consultation *Family and Caregiver Engagement |

*World Economic Forum report, 2024.

5.4.2 Unlocking Opportunities for Skills Development and Job Creation in the Botswana's Care Economy

- 5.4.2.1 As encapsulated in the National Transformative Strategy (2023-2030), the mental, social, and physical well-being of the population is the basis for national productivity and competitiveness. To achieve the universal health care, the Health Sector will need a holistic infrastructure development and maintenance strategy, including a clear human resource plan for health specialists, specialised health machinery, and availability of medication.

Table 29: Unlocking Opportunities in Botswana's Care Economy

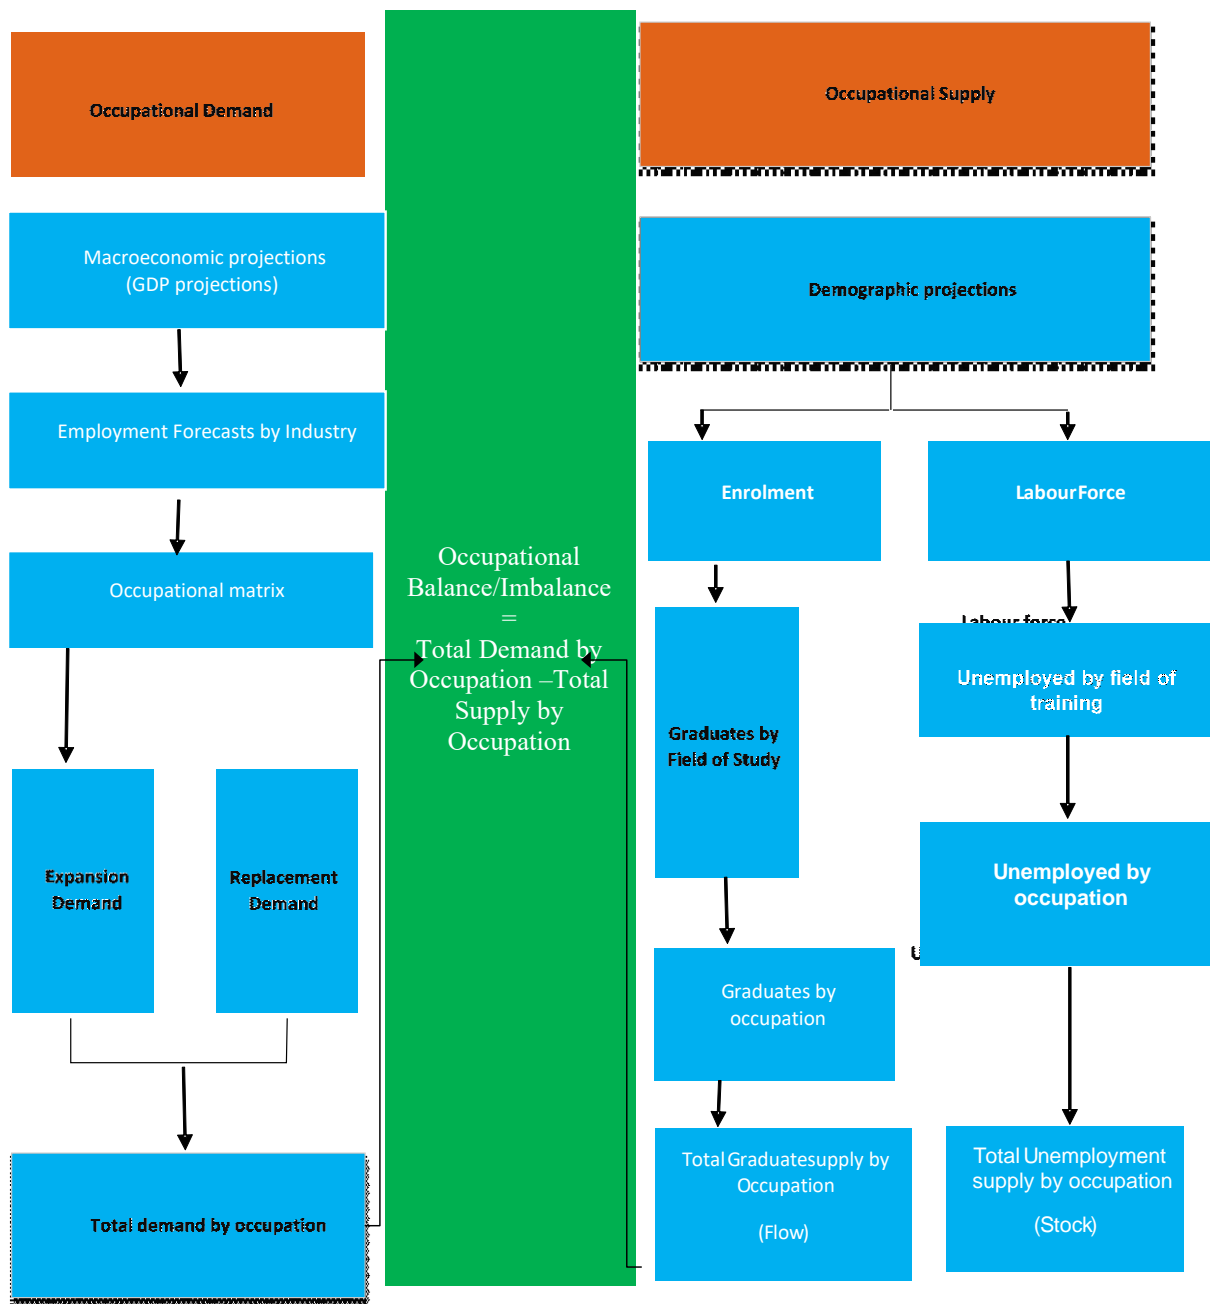

| Extracts from SONA & NTS | Key Projects in NTS and NDP 12 | Opportunities for Skills Development and Job Creation |
|--|---|---|
| <p>The goal of the Health Sector is to design, develop and implement a sustainable health safety net that is inclusive. (State of the Nation Address, pp21)</p> <p>The 2025/26 Budget Strategy Paper has identified four national priorities:</p> <ul style="list-style-type: none"> *Improving Quality of Life *Modernising and Transforming Infrastructure *Building and Inclusive Economy *Innovation and Digital Transformation | <p>Key Projects on 2024 SONA</p> <ul style="list-style-type: none"> *National Mandatory Health Insurance Scheme *Universal Health Coverage Plan for All Citizens *National Health Digitisation Roadmap to modernise our systems *Investment in infrastructure, capacity building, human resource development and public awareness. | <p>*The key projects indicated on the 2024 SONA for Inclusive Health Care presents opportunity to continually addressing the shortages of specialised health professionals.</p> <p>*This presents an opportunity for job creation and development of emerging and future skills (Ref: Appendix 1 & 2 Recommendation for Local and External Training)</p> <p>*Opportunities for Inclusive Health Care include re-tooling and up-skilling the unemployed health graduates to provide health care to the elderly across the country especially in remote areas where there is limited access to critical medical services</p> |

Chapter 6: Skills Forecasting

6.1 Introduction

- 6.1.1 Skills forecasting is the process of determining future skill needs based on economic modelling of future labour demands (Brustis, 2021). The forecasting process detects early warning of the behaviours of the labour market to help key stakeholders to be more responsive to the risks associated with over supply or under supply of skills. Continuous review of skills forecasts is critical for managing unemployment and underemployment levels effectively because production would be adjusted continually and timeously to respond to what is required by the industry at any given time.
- 6.1.2 The skills forecasting model is a tool that integrates modelling and forecasting into the HRD planning process. The key processes of forecasting include but are not limited to the following:
- Identifying the concentration of potential future job openings in the country.
 - Identifying implications of these potential jobs in terms of occupations and qualifications.
 - Comparing the skills needs with the supply of skills to identify if there will be any imbalances.
- 6.1.3 Figure 12 shows the **Occupational Demand and Supply Model** adopted by Botswana. This model is used worldwide, with an option to customize it to each country's situation on data availability. The choice of the model was driven by the availability of information. The **model requires two critical steps**:
- Collecting data on past trends in economy (Gross Domestic Product), labour market, demography, and education.
 - Setting assumptions on the future of economy (GDP Projections), labour market, demography, and education.
- 6.1.4 The adopted model framework for Botswana is similar to the UNESCO Skills Forecasting Model which embraces Forecasts of Labour Supply by Occupation. The supply side of the model capsulate two major determinants of labour supply being graduates who are coming out from the education system (flow) and the unemployed population (stock). Therefore, this means that at the end, two sets of imbalances/balances can be produced largely to indicate the extent to which graduates are affected by labour demand. This analysis is important for Botswana given that the country is faced with high graduate unemployment.

Figure 12 Skills Forecasting Model (Occupational Demand and Supply Model)

Source: UNESCO Skills Forecasting Model

Summary of the Skills Forecasting Results

6.1.5 **Table 30** shows that the demand for more occupations is increasing at an insignificant rate, suggesting that the growth of the economy is insufficient to generate more jobs. The results further shows that production from ETPs is faster than the employment growth rate. This scenario however requires close monitoring of both growth and enrolments trends to safeguard the imbalances widening again.

Table 30: Occupations in demand by Economic Sectors and year (2025-2028)

| SECTORS | 2025 | 2026 | 2027 | 2028 |
|--|--------------|--------------|--------------|--------------|
| AGRICULTURE | 936 | 901 | 880 | 849 |
| BUSINESS & FINANCIAL SERVICES | 1143 | 1111 | 1148 | 1196 |
| CONSTRUCTION | 866 | 759 | 715 | 666 |
| CREATIVE INDUSTRIES | 1530 | 1474 | 1674 | 1548 |
| EDUCATION & TRAINING | 334 | 353 | 382 | 451 |
| HEALTH | 2217 | 1745 | 1576 | 1428 |
| INFORMATION AND COMMUNICATION TECHNOLOGY | 451 | 472 | 512 | 539 |
| MANUFACTURING | 872 | 901 | 857 | 1013 |
| MMEWR | 1913 | 1783 | 2003 | 1908 |
| PUBLIC SECTOR | 248 | 202 | 228 | 226 |
| TOURISM & HOSPITALITY | 799 | 753 | 682 | 660 |
| TRANSPORT & LOGISTICS | 3287 | 3089 | 3231 | 3288 |
| Grand Total | 14596 | 13544 | 13889 | 13771 |

6.1.6 The forecasts for the Transport and Logistics Sector indicate that it is projected to lead in terms of the demand for jobs in the short to medium term. The sector has been prioritised under the National Transformation Strategy (NTS) for the period 2023-2030. Major projects outline by the NTS that specifically focus on improving and developing transportation infrastructure and systems include the following: airport city, high-speed rail line connecting major cities and towns, smart public transportation system and Trans-Kalahari rail line.

6.1.7 The second largest forecasted contributor to employment is the Health Sector, mainly due to the need to increase ratios of physicians, nurses and midwives, pharmacists and dentists per 10 000 population which are currently at 3.8, 30.5, 0.5 and 0.3 respectively compared to the global benchmark of 17.2, 37.7, 4.8, and 3.3 per 10 000 population in 2022 respectively (World Health Organisation, May 2024 - <https://data.who.int/indicators>). This projected increase also resonates well with the national aspiration of attaining universal health coverage.

6.1.8 **On-Job Training:** It is also worth noting that most of the projected forecasts for Health, Finance and Business are specialised areas at 57.5% and 53.5% respectively are not necessarily creating job openings.

6.1.9 Table 31 shows forecasts for occupations which are in short supply by fields of study for the period 2025 to 2028. The demand for the different training fields shows a stagnated growth, mainly because of sluggish economic growth and slow sector expansion. There is a slight decline in 2026 followed by a pick in 2027 due to the projected increase in economic growth and the emerging occupations and future jobs.

Table 31: Occupations in demand by Field of Study and year (2025-2028)

| FIELD OF STUDY | 2025 | 2026 | 2027 | 2028 |
|-------------------------------|--------------|--------------|--------------|--------------|
| AGRICULTURE | 936 | 901 | 880 | 849 |
| TOURISM & HOSPITALITY | 1446 | 1488 | 1462 | 1631 |
| HUMANITIES | 20 | 23 | 26 | 24 |
| SCIENCE & TECHNOLOGY | 1191 | 1156 | 1256 | 1249 |
| SOCIAL SCIENCES | 363 | 321 | 370 | 363 |
| TRANSPORT & LOGISTICS | 2649 | 2469 | 2629 | 2851 |
| MANUFACTURING | 849 | 882 | 832 | 987 |
| BUSINESS & FINANCIAL SERVICES | 1143 | 1111 | 1148 | 1196 |
| CREATIVE INDUSTRIES | 1509 | 1451 | 1648 | 1524 |
| CONSTRUCTION | 917 | 823 | 719 | 681 |
| EDUCATION & TRAINING | 334 | 353 | 382 | 451 |
| ENGINEERING | 1876 | 1769 | 1774 | 1593 |
| HEALTH | 2290 | 1805 | 1625 | 1471 |
| INFORMATION TECHNOLOGY | 133 | 139 | 155 | 163 |
| Grand Total | 15657 | 14693 | 14907 | 15033 |

Chapter 7: Recommendations

7.1 Introduction

- 7.1.1 The recommendations in this report came from stakeholder consultations as outlined in the methodology chapter (paragraph 3.1, Table 1).

7.2 Education and Training Reforms across all Levels of Training

- 7.2.1 Education and Training should shift from a focus on Education for Employment only to Education for Entrepreneurship, Job Creation, Research Development, and Innovation.

7.3 Technical and Vocation Education and Training (TVET)

- 7.3.1 Increase the budget for TVET to enable increase in students' enrolment and requisite infrastructure.
- 7.3.2 Establish Industry Simulations to improve the training and acquisition of industry skills to prepare the graduates for the world of work.
- 7.3.3 Improve private sector participation in TVET with the aim of using partnerships to improve the quality of graduates through the trainer's attachments and students' attachments.
- 7.3.4 Introduce Schools of Excellence for emerging and future skills that include digital skills and green skills to reduce costs and avoid duplication. Development of digital skills and green skills is highly capital intensive, and schools of excellence will reduce costs.

7.4 STEM to STEAM

- 7.4.1 Fast track implementation of transition from Science, Technology, Engineering and Mathematics (STEM) to Science, Technology, Engineering, Arts and Mathematics (STEAM) to support the latest government priorities to integrate technology in the arts to improve their competitive edge.
- 7.4.2 Increase investment on STEM field with special focus on promoting research development and innovation. This will give the graduates opportunities for

product development, commercialisation of products, and development of new technologies for the global economy.

7.5 Student Sponsorship

- 7.5.1 To reduce the saturation of the same qualifications in the labour market, government sponsorship should focus more on priority skills for the priority sectors identified in the National Transformative Strategy. The skills forecast provided should guide quota(s) for the various fields of learning.
- 7.5.2 Incorporate graduate sponsorship in the budget for students' sponsorship to increase the number of post graduate students who will explore opportunities in research development and innovation.

POST GRADUATE TRAINING (Masters, Doctorate, Professional & others)

| FIELD 1: AGRICULTURE | | |
|---|---|-----|
| Meat Scientist | Meat Science | 20 |
| Food Technologist | Microbial Food Safety | 6 |
| Molecular biologist/geneticist | Molecular Biology/Genetics | 23 |
| FIELD 3: BUSINESS & FINANCIAL SERVICES | | |
| Forensic Accounting/Audit | Forensic Science | 93 |
| Digital Marketer | Business Information System | 127 |
| Commercial Transaction Advisors | Business and Finance | 58 |
| FIELD 7: ENGINEERING | | |
| Ventilation Engineers | Mechanical Engineering | 108 |
| FIELD 9: HEALTH | | |
| Anaesthetists | Anaesthesia | 8 |
| Paediatricians | Paediatrics | 10 |
| General Surgeons | General Surgery | 9 |
| Obstetrician/Gynaecologists | Obstetrics and Gynaecology | 12 |
| Psychiatrists | Psychiatry | 15 |
| FIELD 12: INFORMATION TECHNOLOGY | | |
| Artificial Intelligence Engineers | Artificial Intelligence + Data Lakes | 6 |
| Machine Learning Engineers | Machine Learning | 6 |
| Cyber Risk Manager | Software Engineering | 1 |
| IT Auditor | Computer Science / Information Technology | 11 |
| FIELD 14: SCIENCE & TECHNOLOGY | | |
| Project Management & Commissioning Specialist | Project Management | 14 |
| Risk Management Specialist | Risk Management | 58 |
| Geologist scientists | Geology | 12 |
| Geophysicists | Geology and Physics | 12 |
| Hydrogeologists | Geology and Physics | 12 |
| Geochemists | Mining and Geological Sciences | 12 |
| Geo Metallurgist | Material and Metallurgical Engineering | 33 |
| Mineral Surveyors | Mining and Mining Surveying | 14 |
| FIELD 15: SOCIAL SCIENCES | | |
| Legal Manager | Law & Administration | 49 |
| Contracts Specialist | Law & Administration | 14 |
| Social researcher (Research and Development Managers) | Social sciences | 24 |
| Monitoring & evaluation specialist | Monitoring and Evaluation | 3 |
| FIELD 16: TRANSPORT AND LOGISTICS | | |
| Dry Port Managers | Transport & Logistics Management | 13 |
| Maintenance Manager | Mechanical Engineering | 108 |

| | | |
|--------------------------------|----------------------------------|-----|
| Workshop Manager | Mechanical Engineering | 108 |
| Terminal Managers | Transport & Logistics Management | 13 |
| Technical Manager | Mechanical Engineering | 108 |
| Transport/Operations Managers | Transport & Logistics Management | 277 |
| Project Manager | Project Management | 13 |
| FIELD 17: MANUFACTURING | | |
| Pharmaceutical Chemists | Industrial Pharmacy | 20 |
| Pharmaceutical Microbiologist | Industrial Pharmacy | 20 |
| Pharmaceutical Scientists | Industrial Pharmacy | 20 |
| Product developer | Science and Technology | 44 |
| Production Specialist | Manufacturing | 30 |
| Regulatory Affairs Specialist | Quality Management | 3 |

PROFESSIONAL TRAINING (Certification)

| OCCUPATION | AREAS OF STUDY | ESTIMATE |

RECOMMENDATION FOR EXTERNAL TRAINING

EXTERNAL TRAINING

TRAINING AT DIPLOMA LEVEL (Technicians and Others)

| OCCUPATION | AREAS OF STUDY | FORECAST |
|--|---|----------|
| FIELD 1: AGRICULTURE | | |
| Meteorologist -Technical Officer | Meteorology | 12 |
| Fish technical officer | Aquaculture | 19 |
| Fire Impact Assessors | Fire Risk Assessment | 16 |
| FIELD 9: HEALTH | | |
| Clinical Technologists | Clinical Technology | 3 |
| Biomedical Equipment Technicians | Biomedical Equipment Technology | 3 |
| Orthopaedic Technicians | Orthopaedic Technology | 10 |
| FIELD 12: INFORMATION TECHNOLOGY | | |
| Information & Communications Technology Operations Technicians | Information & Communications Technology | 0 |
| Information & Communications Technology User Support Technicians | Information & Communications Technology | 58 |
| Computer Network & Systems Technicians | Information & Communications Technology | -2,539 |
| Web Technicians | Information & Communications Technology | 0 |
| Broadcasting and Audiovisual Technicians | Information & Communications Technology | -147 |
| Telecommunications Engineering Technicians | Information & Communications Technology | 36 |
| FIELD 17: MANUFACTURING | | |
| Leather Processing Technicians | Leather Science and Technology | 80 |
| Leather Technicians | Leather Science and Technology | 12 |
| Textile Spinning Technicians | Textile Spinning Technology | 29 |
| Textile Printing Technician | Textile Design and Printing | 29 |
| Leather Technologists | Leather Products Manufacturing Technology | -33 |

**TRAINING AT DEGREE LEVEL
(Professionals)**

| OCCUPATION | AREAS OF STUDY | FORECAST |
|---|---|----------|
| FIELD 1: AGRICULTURE | | |
| Meteorologist | Meteorology | 11 |
| Seed technologist | Seed Science | 15 |
| Animal scientist | Animal Nutrition/Animal Breeding & Genetics | 7 |
| FIELD 3: BUSINESS & FINANCIAL SERVICES | | |
| Actuarial | Actuarial science | 23 |
| FIELD 4: CREATIVE INDUSTRIES | | |
| Creative Coding Specialists | Programming | 30 |
| Curators | Art History / Archaeology / Museum Studies | 46 |
| Copyright Specialist | Copyright Law | 99 |
| Illustrator | Fine Arts | 30 |
| Arts Manager | Arts Management | 44 |
| FIELD 9: HEALTH | | |
| Trauma Nurses | Emergency Care/Trauma | 11 |
| Ophthalmology Nurses | Ophthalmic Nursing | 8 |
| ENT Nurses | Ear, Nose and Throat | 7 |
| Theatre Nurses | Theatre Nursing | 13 |
| Palliative Care Nurses | Palliative Care Nursing | 8 |
| Endocrinology Nurses | Endocrinology Nursing | 7 |
| Orthopaedic Nurses | Orthopaedic Nursing | 8 |
| Occupational Health Nurses | Nursing Science | 10 |
| Wound Care Nurses | Wound Care Nursing | 12 |
| Audiologists | Audiology | 22 |
| Speech Therapists | Speech Language Pathology | 20 |
| Radiographers | Radiography | 24 |
| Sonographers | Sonography | 27 |
| Therapeutic Radiographers | Therapeutic Radiography | 25 |
| Diagnostic Radiographers | Diagnostic Radiography | 22 |
| Medical Instrumentation Specialists | Biomedical Equipment Technology | 10 |
| Nuclear Medicine Technicians | Nuclear Medicine Technology | 6 |
| Cath-lab Technicians | Cardiovascular Technology | 5 |
| Clinical Dietitians | Nutrition and Dietetics | 20 |
| Nutritionists | Nutrition | 40 |
| Psychotherapists | Clinical Psychology | 12 |
| Microbiologists | Microbiology | 10 |
| Prosthetists /Orthotists | Prosthetics/Orthotics | 17 |
| Dentists | Dentistry | 32 |
| Dental Laboratory Technologists | Dental laboratory Technology | 21 |
| Dental Therapists | Dental Therapy | 20 |

| | | |
|--|--|----|
| Monitoring and Evaluation Officers | Monitoring and Evaluation | 20 |
| Paramedics | Forensic Paramedian | 40 |
| Disaster Response Officers | Emergency Management | 40 |
| Epidemiologists | Epidemiology | 20 |
| Biomedical Engineers | Biomedical Engineering | 50 |
| FIELD 10: TOURISM & HOSPITALITY | | |
| Chefs | Culinary Arts | 7 |
| Specialised Chefs | Culinary Arts | 13 |
| Ornithologist | Travel and Tourism | 2 |
| FIELD 12: INFORMATION TECHNOLOGY | | |
| Digital Transformation Managers | Digital Transformation Management | 12 |
| Virtual/Mixed Reality Developers | Computer Engineering/Game Development | 17 |
| Robotics Engineers | Robotics Engineering/Artificial Intelligence | 35 |
| Big Data Analytics | Data Science | 26 |
| FIELD 14: SCIENCE & TECHNOLOGY | | |
| Blockchain Developers | Software Engineering/Virtual Reality | 33 |
| FIELD 17: MANUFACTURING | | |
| Industrial Pharmacist | Industrial Pharmacy | 20 |
| Leather Scientists & Chemist | Leather Science and Technology | 57 |
| Textile Spinning Engineers | Textile Spinning Technology | 14 |

POST GRADUATE TRAINING (Masters, Doctorate, Professional & others)

| OCCUPATION | AREAS OF STUDY | FORECASTS |
|---|---|-----------|
| FIELD 1: AGRICULTURE | | |
| Soil scientist | Soil science | 18 |
| Agrochemical Specialist | Toxicology/Chemistry/Analytical Chemistry | 57 |
| Hydrometeorologist | Meteorology | 4 |
| Agro meteorologist | Meteorology | 4 |
| Climate Change Officer /Climate Scientist | Meteorology | 4 |
| Horticulturalist | Pomology/Floriculture/Olericulture | 18 |
| Weed scientist | Weed Science | 18 |
| Post-harvest technologist | Harvest Horticulture and Grain Production | 18 |
| Food safety specialist | Microbial Food Safety | 10 |
| Animal bio statistician | Biometry | 23 |
| Aqua culturist | Aquaculture | 18 |
| Scientific officer | Chemistry/Biology | 18 |
| Animal welfare specialist | Animal welfare | 18 |
| Industrial biotechnologist/ microbiologist | Microbiology/Biotechnology | 10 |
| Senior Researcher, | Green Chemistry/Analytical Chemistry | 12 |
| Biotechnologists (agriculture) | Animal or Plant Biotechnology | 10 |
| Ecologists | Ecology | 18 |
| Wildlife specialist | Wildlife medicine | 10 |
| Fish pathologist | Fish pathology | 10 |
| Entomologist | Entomology | 10 |
| Bee pathologist | Bee Pathology | 10 |
| Veterinary pathologist | Pathology | 10 |
| Veterinary epidemiologist | Veterinary epidemiology | 16 |
| Animal Reproduction Physiologists | Animal Reproduction physiology | 10 |
| Plant Pathologist | Plant science/Botany | 18 |
| Veterinarian (Research specialist) | Veterinary Medicine/ Science | 16 |
| One health specialist | Veterinary Epidemiology & Public Health | 16 |
| Fire Ecologists | Fire Ecology | 18 |
| FIELD 3: BUSINESS & FINANCIAL SERVICES | | |
| Tax Specialist | Taxation | 27 |
| Fintech Analysts | Financial Technology | 93 |
| Financial Services Supervisors | Financial Technology | 93 |
| Underwriter | Underwriting | 27 |
| Auctioneer | Auctioneering | 12 |

| | | |
|---|-----------------------------------|-----|
| Marketing Managers | Fintech (Financial Technology) | 127 |
| FIELD 9: HEALTH | | |
| Infection Prevention Specialists | Infection Prevention & Control | 4 |
| Oncologists | Oncology | 13 |
| Radiologists | Radiology | 9 |
| Paediatric Surgeons | Paediatric Surgery | 5 |
| Neurosurgeons | Neurosurgery | 5 |
| Cardiovascular Surgeons | Cardiovascular Surgery | 5 |
| Medical Oncologists | Medical Oncology | 16 |
| Surgical Oncologists | Surgical Oncology | 14 |
| Radiation Oncologists | Radiation Oncology | 13 |
| Intensivists | Critical Care Medicine | 8 |
| Maxillofacial Specialists | Dentistry & Surgery | 2 |
| Urologists | Urology | 3 |
| Nephrologists | Nephrology | 9 |
| Clinical Pathologists | Clinical Pathology | 2 |
| Prevention Medicine Specialists | Preventative Medicine | 5 |
| Occupational Medicine Practitioners | Occupational Health | 7 |
| Infection Prevention Specialists | Infection Prevention & Control | 6 |
| Cardiologists | Cardiology | 9 |
| Endoscopic Surgeon | Endoscopic Surgery | 6 |
| Gastroenterologists and Hepatobiliary Surgeons | Gastroenterology | 4 |
| Ophthalmologists | Ophthalmology | 6 |
| Podiatrists | Podiatric Medicine | 3 |
| Colorectal Surgeons | Intestinal & Anorectal Physiology | 5 |
| Paediatric Cardiac Surgeons | Paediatric Cardiac Surgery | 5 |
| Plastic & Reconstructive Surgeons | Plastic & Reconstructive Surgery | 1 |
| Transplant Surgeons (Renal, Liver, Cardiac, Pulmonary/Lung) | Transplant Surgery | 4 |
| Cardiac Anaesthesiologists | Cardiac Physiology | 4 |
| Rheumatologists | Rheumatology | 9 |
| Fetomaternal Medicine Specialists | Maternal-Fetal Medicine | 8 |
| Urogynaecologists | Obstetrics and Gynaecology | 5 |
| Pulmonologists | Pulmonology | 9 |
| Orthopaedic Surgeons | Orthopaedic Surgery | 7 |
| ENT Specialists | Ear, Nose and Throat Medicine | 5 |
| Neurologists | Neurology | 7 |
| Internal Medicine Physicians | Internal Medicine | 8 |
| Clinical Haematologists | Haematology | 7 |
| Bone Marrow Transplant Surgeons | Haematology/Oncology | 3 |
| Cardiac Surgeons | Cardiothoracic Surgery | 4 |
| Orthopaedist | Orthopaedics | 5 |
| Teleradiology Specialists | Musculoskeletal Radiology | 2 |
| Emergency Medicine Physicians | Emergency Medicine | 2 |
| Paediatric Intensive Care Nurses | Paediatric Intensive Care Nursing | 15 |

| | | |
|---|--|----|
| Critical Care Nurses | Critical Care Nursing | 13 |
| Neo-natal Intensive Care Specialised Nurses | Neonatal Intensive Care Nursing | 9 |
| Anaesthetic Nurses | Anaesthesia Nursing | 15 |
| Perfusionists (Nurse Technicians) | Perfusion Science | 4 |
| Theatre Nurses (Cardiac & Urology) | Theatre Nursing | 12 |
| ICU Nurses | Critical Care Nursing | 14 |
| Cardiac/ Coronary Nurses | Cardiac Nursing | 12 |
| Child Health / Paediatric Nurses | Child Health Nursing | 17 |
| Neo-natal Care Nurses | Neonatal Nursing | 8 |
| Lactation and Mother Care Nurses | Lactation and Mother Care Nursing | 13 |
| Cath lab Care Nurses | Cath lab Care Nursing | 4 |
| Geriatric Nurses | Gerontology Nursing | 16 |
| Renal/Nephrology Nurses | Renal/Nephrology Nursing | 14 |
| Oncology Nurses | Oncology Nursing | 12 |
| Infection Prevention and Control Nurses | Infection Prevention and Control Nursing | 15 |
| Geriatric Pharmacists | Geriatric Pharmacy | 7 |
| Nutritional Support Pharmacists | Nutrition Pharmacy | 8 |
| Nuclear Pharmacists | Nuclear Pharmacy | 8 |
| Oncology Clinical Pharmacists | Oncology Pharmacy | 9 |
| Clinical Pharmacists | Pharmacy | 10 |
| Orthodontists | Orthodontics | 9 |
| Paediatric Dentists | Paediatric Dentistry | 6 |
| Periodontists | Periodontics | 4 |
| Prosthodontists | Prosthodontics | 3 |
| Speech/Language Pathologists/Therapists | Speech Language Pathology | 41 |
| Optometrists | Optometrists | 7 |
| Virologists | Biology Sciences/Applied Microbiology | 8 |
| Biochemists | Biochemistry | 8 |
| Anaesthetic Lecturers | Anaesthesia | 2 |
| Braille Specialists | Unified English Braille System | 12 |
| Medical Physicists | Medical Physics | 2 |
| Clinical Psychologists | Clinical Psychology | 65 |
| Child Psychologists | Child Psychology | 12 |
| Neuro Psychologists | Neuro Psychology | 8 |
| Sports Psychologists | Sports Psychology | 8 |
| Career Psychologists | Psychology | 10 |
| Rehabilitation Psychologists | Rehabilitation Psychology | 15 |
| Forensic Psychologists | Forensic Psychology | 11 |
| Clinical Social Workers | Social Work (Clinical) | 13 |
| Oncology Social Workers | Oncology Social Work (Oncology) | 16 |
| Genetic Counsellors | Genetic Counselling | 9 |
| Clinical Counsellors | Counselling | 9 |
| Physical Therapists | Physical Therapy | 15 |
| Medical Economists | Healthcare Economics | 2 |

| | | |
|--|--------------------------------------|-----|
| Health Economists | Health Economics | 10 |
| Health Informatics Specialists | Health Information Management | 250 |
| Bioinformatics Specialists | Bioinformatics | 7 |
| Medical Facilities/Healthcare Architects | Health Care Design & Engineering | 4 |
| Biostatisticians | Biology and Statistics(combined) | 5 |
| Nutritionists | Nutrition | 10 |
| FIELD 12: INFORMATION TECHNOLOGY | | |
| Artificial Intelligence Engineers | Artificial Intelligence + Data Lakes | 38 |
| Machine Learning Engineers | Machine Learning | 26 |
| FIELD 15: SOCIAL SCIENCES | | |
| Mineral Economists | Economics | 4 |
| Energy Economist | Economics | 3 |
| Commercial Transaction Advisors | Commercial/Business Law | 49 |
| FIELD 17: MANUFACTURING | | |
| Industrial Pharmacist | Industrial Pharmacy | 20 |
| Leather Shoe Designer | Leather Science and Technology | 52 |

SKILLS FORECASTS (2025-2028)

LOCAL TRAINING

| OCCUPATION | AREAS OF STUDY | QUALIFICATION | FORECASTS | | | |
|--|--|---------------|-----------|------|------|------|
| | | | 2025 | 2026 | 2027 | 2028 |
| FIELD 1: AGRICULTURE | | | | | | |
| Milk technician | Milk production | Certificate | 67 | 66 | 76 | 74 |
| Meat Processor | Meat processing | Certificate | 76 | 76 | 76 | 76 |
| Meat Inspectors | Meat Safety & Inspection | Diploma | 24 | 21 | 19 | 15 |
| Irrigation Technician | Irrigation technology | Diploma | 24 | 21 | 19 | 15 |
| Extension Officers | Agriculture Extension | Degree | 17 | 17 | 19 | 18 |
| Range managers | Range Science | Degree | 17 | 17 | 19 | 18 |
| Animal Breeder | Animal production | Degree | 6 | 6 | 7 | 7 |
| Irrigation engineer (civil engineer) | Civil engineering/Irrigation engineering | Degree | 12 | 14 | 14 | 13 |
| Animal Nutritionist | Nutrition Science/Nutrition & Dietetics | Degree | 74 | 64 | 58 | 49 |
| Agronomist | Agronomy | Degree | 16 | 14 | 13 | 11 |
| Meat Scientist | Meat Science | Masters | 27 | 25 | 23 | 20 |
| Food Technologist | Microbial Food Safety | Masters | 14 | 6 | 6 | 6 |
| Molecular biologist/geneticist | Molecular Biology/Genetics | Doctorate | 25 | 27 | 25 | 23 |
| FIELD 3: BUSINESS & FINANCIAL SERVICES | | | | | | |
| Commercial Transaction Advisors | Finance and Business | Masters | 56 | 74 | 44 | 58 |
| Digital Marketer | Business Info. Systems | Masters | 106 | 92 | 117 | 127 |
| Data Analyst | Data Analytics | Degree | 28 | 12 | 12 | 12 |
| Buyer | Purchasing & Supply | Degree | 36 | 32 | 29 | 25 |
| Risk Officers | Risk Management | Degree | 10 | 12 | 11 | 11 |
| Business Intelligence Analysts | Business Info. Systems | Degree | 285 | 292 | 312 | 323 |
| Property Valuers | Real estate management | Degree | 20 | 18 | 16 | 14 |

| OCCUPATION | AREAS OF STUDY | QUALIFICATION | FORECASTS | | | |
|-------------------------------------|--|---------------|-----------|------|------|------|
| | | | 2025 | 2026 | 2027 | 2028 |
| Facility Manager | Real estate management | Degree | 40 | 38 | 35 | 29 |
| Estate Agents | Real estate management | Degree | 40 | 38 | 35 | 29 |
| Asset Manager | Asset Management | Degree | 11 | 12 | 12 | 11 |
| Data Scientists | Computer Engineering / Computer Science | Degree | 28 | 12 | 12 | 12 |
| Forensic Accounting/Audit | Forensic Science | Masters | 78 | 83 | 85 | 93 |
| IT Auditor | Computer Science / Information Technology | Masters | 11 | 12 | 12 | 11 |
| FIELD 4: CREATIVE INDUSTRIES | | | | | | |
| Camera Operators | Creative Media Production | Diploma | 31 | 35 | 37 | 40 |
| Film Distributors | Film Distribution and Marketing | Degree | 48 | 33 | 33 | 32 |
| Production Runners | Film Production | Certificate | 119 | 94 | 128 | 122 |
| Gaffers | Electrical and Electronic Technology | Certificate | 134 | 105 | 144 | 138 |
